

It's  
your life

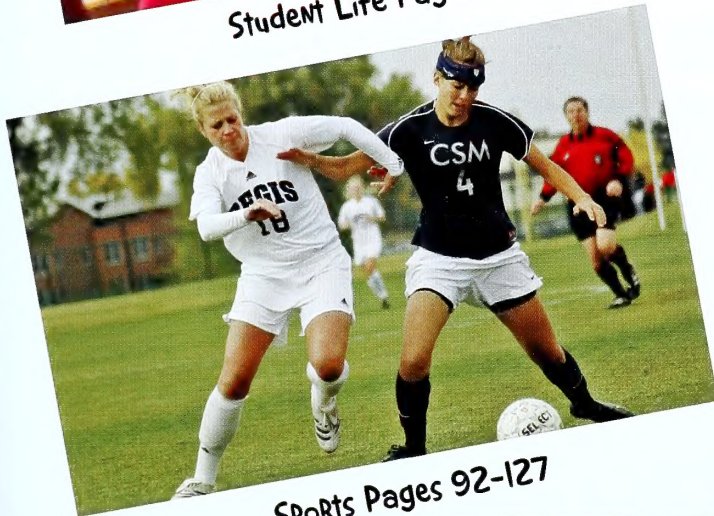

# TABLE OF CONTENTS

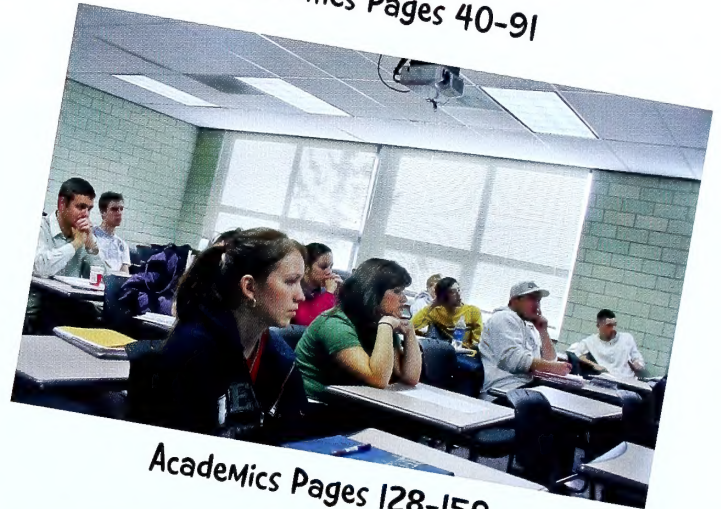

Student Life Pages 4-39

Clubs and Activities Pages 40-91

Sports Pages 92-127

Academics Pages 128-159

Individuals Pages 160-175

This year's theme was attributed to a great staff which was very creative. The theme titled "It's Your Life.. COLOR IT!" was inspired by a child's coloring book. The idea of being a young child and staying within the lines was the ideal simple life. Now that we are all in college, we are all challenged with choices everyday that stretch beyond the lines. We have to make sense of complicated problems in school and our everyday lives.

## **ANOTHER YEAR STARTED...**

the seniors are at the end of one journey about  
to embark upon the next. They are the  
creators of the next stage in life. We all wish  
you well as you progress into society. Here's to  
you seniors... Create a masterpiece! We, at  
the yearbook, hope you enjoy this years edition.  
It's Your Life... COLOR IT!"

## ANOTHER YEAR PASSED

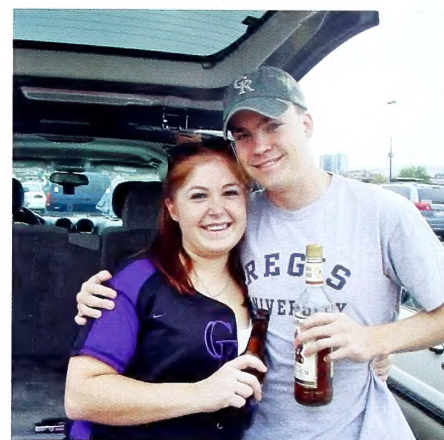

# 2007-2008

Another school year, another set of thousands of memories, dozens of new friends, and an experience that could only be explained as college. Regis may be an extremely small community, but the bonds, friendships, and opportunities that form within the slightly-gated community allow for an individual to grow tremendously throughout their college years. Student life is that element of the college experience that allows for the individual to grow into the person that they will be for the rest of their lives. Fun times with friends, memories shared with new strangers, and a vast array of knowledge learned not only inside but also outside the academic walls, allow for a person to grow intellectually, spiritually, socially, and most importantly emotionally.

This year Regis land provided its obvious ups and downs. Everyone will have that memory that sticks with them through everything in the future, and everyone had that one experience in college that changed everything. Four years away from home, fellow students from across the world come together to celebrate the beauty of learning--and that, by far, has allowed the maturing of every individual on campus.

A note to all the seniors, as you walk across the stage in either December or May, never forget the great times that occurred during your college years. Your friends will still be there a decade from now, and every experience has impacted the person you are. Congratulations on your academic achievement, and remember, no matter what happens ... NO ONE can ever take your education away.

Outside of the classroom, students can further their individual advances by joining clubs. Clubs are a great way to meet new people, learn from experiences, and put their dreams into motion.

Ping Pong tables may be a table normally used for "outside of campus" events, but with the updated Student Lounge, students can play a free game of Ping-Pong.

Smile pretty ladies! Students get together with common interests to hang out and have a good time! With students from around the world, it is always nice to meet different types of people!

# STUDENT LIFE DIVISION

# LIFE IN COLORADO

More than just Denver..

Colorado, the Centennial State, sits beautifully below the Rocky Mountains. Being a mile above sea level leaves millions of possibilities for people to enjoy the outdoors. Whether it be skiing, snowboarding, or enjoying a weekend up in the mountains, to white water rafting down one of Colorado's various rivers, the Colorado landscape leaves every person happy. With six professional sports teams, and hundreds of miles of trails, Colorado is not a place to be bored. Whether you love the Colorado Rockies, or St. Mary's Glacier in the summer, or the Denver Nuggets and Keystone in the winter, Colorado is an outdoor paradise for every onlooker. Various Colorado Facts:

Colorado means "colored red"

Colorado's southwest corner borders Arizona, New Mexico and Utah, the only place in America where the corners of four states meet. Colorado is the only state in history to turn down the Olympics. Denver was supposed to host the 1976 Olympics. 62% of all state voters choose at almost the last minute not to host the Olympics, because of the cost, pollution, and population boom it would have on the State of Colorado and the City Denver.

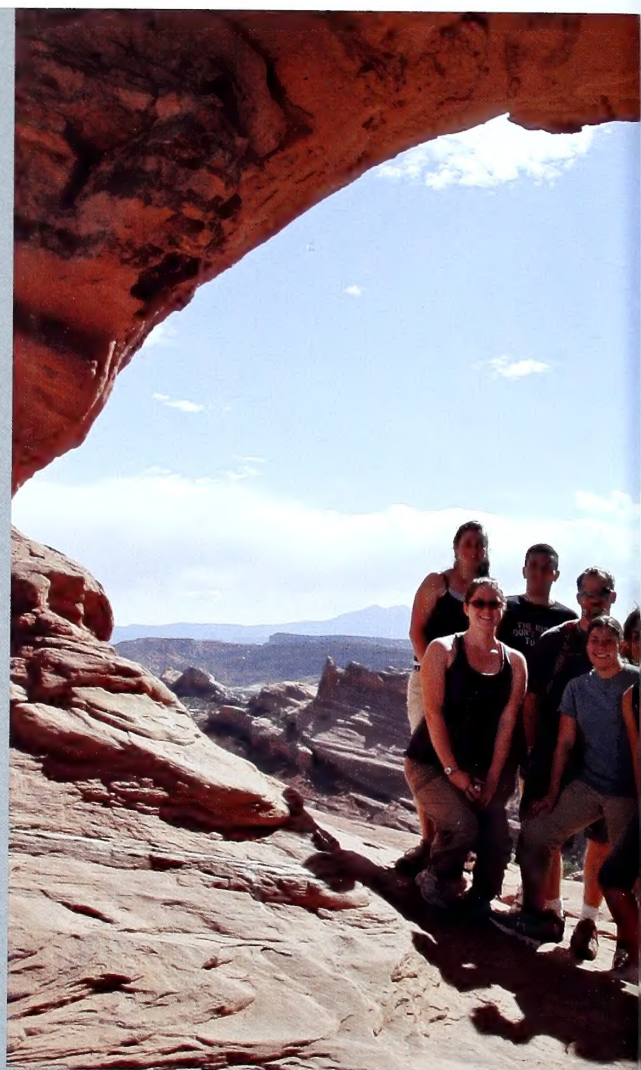

Colorado has the most micro breweries per capita than any other state.

Colorado is a great place to be adventurous and experience new things.

"I Love Denver. I am staying here once I graduate!"

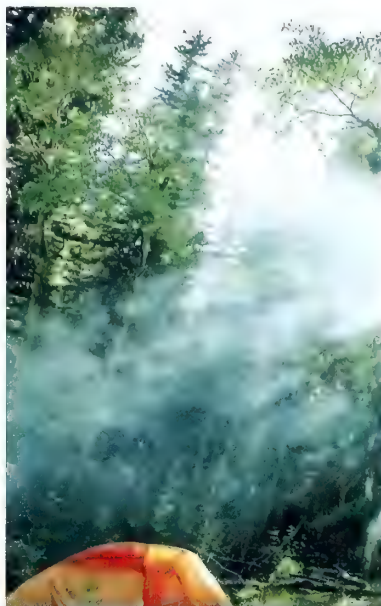

Patty Sprecco, Senior

Climbing a Mountain can sure get tiring, or in this case, WINDY!!! With dozens of fourteeners around, students enjoy the thrill of hiking up a Mountain top!

Depending on where you go in Colorado, the landscapes seem to drastically change. students take a picture in Moab, a desert area of Colorado!

Camping is a very popular activity by Regis University students. It is nice to go and spend some time in Mother Nature, and of course not as expensive than staying in a four star hotel!

Students on an OAP trip and hike for five credits. School sponsored trips occur almost every year, and it's a fun way to get to know other students, faculty, and the Colorado region.

On the road again... With Colorado offering so much, it is sometimes hard to find a place to go! I don't think anyone will have any problems though... and if you do, OAP has some great opportunities to experience Colorado!

# FAMOUS FACES

A few people you may have seen around...

Rejs may be a college, but it seems more like a small city where everyone knows everyone. The community feel is something that is deeply embedded into the Rejs atmosphere. Students enjoy walking to class and recognizing familiar faces and friends. Students at Rejs are from all over the country, and many also are from other countries. The diversity in geography is something that makes Rejs different than many other small Catholic institutions around the country. It's no wonder that many of students who transfer from Rejs always seem to come back. Rejs is a university that encompasses individuals with a lot of character. Rejs may be a small school, but it is sure one full of unique individuals that come together to form a solid community.

Here are some of the few of many famous faces that walk our campus daily, and are deeply involved in all aspects of life at Rejs University. Thanks guys for all your hard work!

"I really like being able to recognize people walking from class to class!"

Christina Siadat, Senior

His title may be Vice President, but Marcus sure has his work cut out for him. Marcus does a great job on BUSGA, and is respected by many.

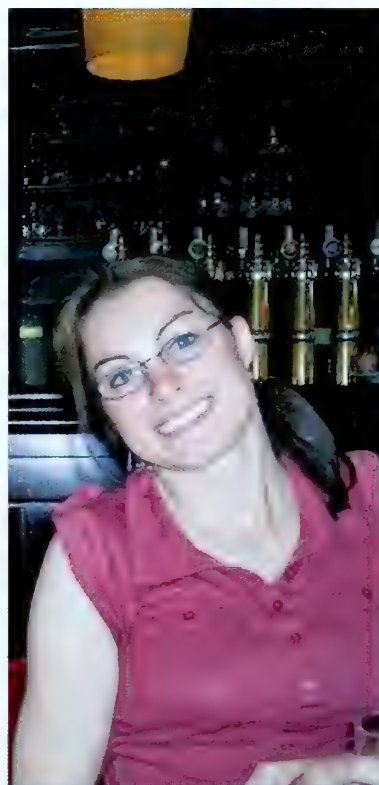

The man who holds the school together, Zac Goette. Zac balances a heavily course load, and hours upon hours of walking as Student Body President. This guy works very hard, and is probably one of the most humble, great guys around.

Many famous faces have even the best sense of humor.

Scam Port, a man that is by far one of the most family guys on campus. His bright personality and great sense of humor make everyone feel very comfortable. You will be missed Scam!

Trisha Curtis, the Chief Justice at Regis works extra hard to put the Regis Motto into work. Being one of the only girls in the Executive cabinet, Trisha works extra hard to keep Regis running effectively.

# QUAD ACTIVITIES

## CLASS IS OVERRATED... RIGHT?

The Quad is known to all students who come to Regis. It is the center of everything and the gathering place for many events. On any given day you will find students busily rushing to the student center or simply relaxing in the sun. During the warm weather days students gather for games of frisbee or soccer.

The Quad is also a gathering place for graduations, receptions and is the center for freshmen orientation. Students gather here for various reasons and whatever they may be it is a great hang out place for students to mix and mingle!

So wherever you may be going, you will probably end up passing through or by the Quad which is the center for Regis University.

"I love the Quad especially in the fall because with all the colors changing it makes for a beautiful scene."

Jessie Feldman, Sophomore

Here you can see students going to class, playing games, or just soaking up some rays.

Eating in the Quad it is  
 a regular occurrence,  
 especially on such a  
 wonderful day. Who  
 would want to be inside?

Fellow student is enjoying a lunch  
 break in the warm autumn sun.

On the morning of freshmen  
 orientation, new students anxiously  
 look for their prospective advisors in  
 the Quad.

Walking to the student  
 center on a mission.

## A HOME AWAY FROM HOME

"I'll never forget our time with Drew and the washing machine, or Mike taking a nap in the hallway."

Analogues, 309

Students seem to be a little sluggish in the morning before early class. With limited 60 slots for my 8 AM class, it is really easy to wake up at 7:30 AM, but we scale swims, and make it before the Professor does!

One of the best opportunities to meet people is in the Freshman dorms. If you can handle your roommate's dirty smell, at least the bathroom with a dozen other students, the dorms are a great opportunity to get to know people a lot different from yourself.

Don't Look so excited! When RA's are not on duty, desk clerks (as in work/study) save the day and man the desk. It May Not be the Most exciting job in the world, but it sure is a Nice way to do some homework!

RA's go to town! Decorations and desk tags with resident's names on them are a great example of the tight knit community that Regis embodies. But really... Team Heidi?

Not just your typical dorm room. Regis has great living amenities. Microwaves, fridges, and free laundry are very nice for all of us a little low on funds.

# M

## ASS OF THE HOLY SPIRIT

KNOWLEDGE...WISDOM...UNDERSTANDING

Mass of the Holy Spirit is a year-end liturgical celebration of the academic year. Hundreds of students and faculty join in the beautiful chapel that was just recently completed and offer prayers and spiritual guidance in an new architectural setting.

This year marked a special triumph in the history of the Holy Spirit service. Various groups who gathered into the ceremony. African dance was the opening song to which the priestess entered the sacred space, and throughout the ceremony, many readings were read in different languages.

The various different cultural aspects added to the ceremony allowed for new traditions to experience a Catholic mass, but not in its traditional setting. With a more ecumenical approach, students and priests from all over the world were able to gather and pay their respects to God, or whatever they personally worship.

Mass of the Holy Spirit invites everyone to take in the academic year with a fresh spirit, and to welcome the new experiences that the student, faculty, and staff will undergo for the next nine months.

"I really enjoyed the different religious and cultural elements to this year's celebration"

Grace Liles, Senior

African dance was used throughout the ceremony to pay tribute to other cultures that are flourishing throughout the University.

Father Sheehan, S.J. was the presider of the Mass of the Holy Spirit.

Father Ed Kinerk S.J. distributes the Holy Communion after delivering an inspiring and uplifting homily.

The packed chapel was full of eager faces ready to embark on the new academic year. Students were dismissed from their 10:50 class to attend Mass of the Holy Spirit.

Students actively participate throughout the Mass. Many prayers were offered for the community as well as Regis Staff and students.

# RETREATS

By: [Name] [Date]

No matter who a student is, or where that student comes from, it is nice to know that in a tight-knit community like Regis, great friends can be made. Those friends are there for that student through everything, the ups and downs, the good times and bad. Regardless, there comes a time in each young adult's life where revelations are made, and that student learns amazing things about themselves. Retreats at Regis University are designed for personal, social, and emotional growth. Whether the retreat be through a work/study bonding weekend, a spiritual centered retreat, or a retreat designed to simply meet people, new friendships are formed and memories are made. Looking back, a student will take time to think about those great times, and bonds they made with their new friends that they might not have met without the retreat. Student leaders, as well as faculty, work very hard to put these retreats together, and without their help, the retreats would not be anything close to the spectacular experience that they are today.

"I always have an amazing time learning more about myself, and about other people."

Amber Hubbs, Junior

Being around the different clubs, students have a lot of fun with their friends. This is a great way for students to bond with each other and build relationships.

A group of students in Student Activities get ready to go on their annual Student Market at the beginning of Fall semester.

These girls are having a fun time taking a leisure walk in the woods and stop to pose for a picture.

Two girls pose before they leave for a fun weekend retreat.

During retreats for different clubs, students can brainstorm fun ideas for the year with fellow students. This is a great way for students to bond with each other and form relationships.

Members of the Multicultural Awareness Club retreat go to the mountains to get to know each other and bond. Students came back rejuvenated with new friends and a relaxed attitude!

# KAIROS

## GOD'S TIME

Kairos is a group of students who intend to participate in a personal quest for faith. The name Kairos is translated as a God's time. A time away from the distractions of everyday life, a time when we witness "God rise up in the movement of Christ in your life" and to learn something "new" from your quest.

Kairos takes place up in the summer. The first two weeks of the society of Kairos are held indoors, and every individual who goes in a Kairos times will be continuing onward, one with a new's worth in life.

The third stage daily reflects the individual to search for meaning within themselves, and to extend each person how much they are loved in every aspect of their lives. During Kairos produces lifelong friendships, and lasting bonds and bonds the rest of time. Remember to always live the truth.

"I will never forget Kairos. Not only because of the spiritual empowerment, but because of all the wonderful people I became close to."

Nichole Bryan September

A small group takes some time to take a group photo. The retreat was full of many emotional, up and down, but it was a nice to share life stories with many different new friends.

Many elements of Kairos are considered very 'high-tech', but the fact that some students are not wearing much clothing seems like it might be a new one.

Students listen to personal talks from their peers. Stories are a very important part to the Kairos experience. Not to mention sharing, and personal growth...

Another one of the special elements to the Kairos retreat, I wonder where the blind folds and the long path will lead?

Everyone who attends Kairos remembers the Samerii game. It may be a tad confusing, but it is defiantly entertaining to watch...

# FALL FORMAL

PLAY THAT FUNKY MUSIC...

It was no coincidence that Fall Formal needed a wide variety of outfits being just a few days before Halloween. Students were invited to dress up in costume and attend this year's Fall Formal. Students wore everything from banana suits, to zip costumes. There were also jokers from the seventies, and french maids from the thirties.

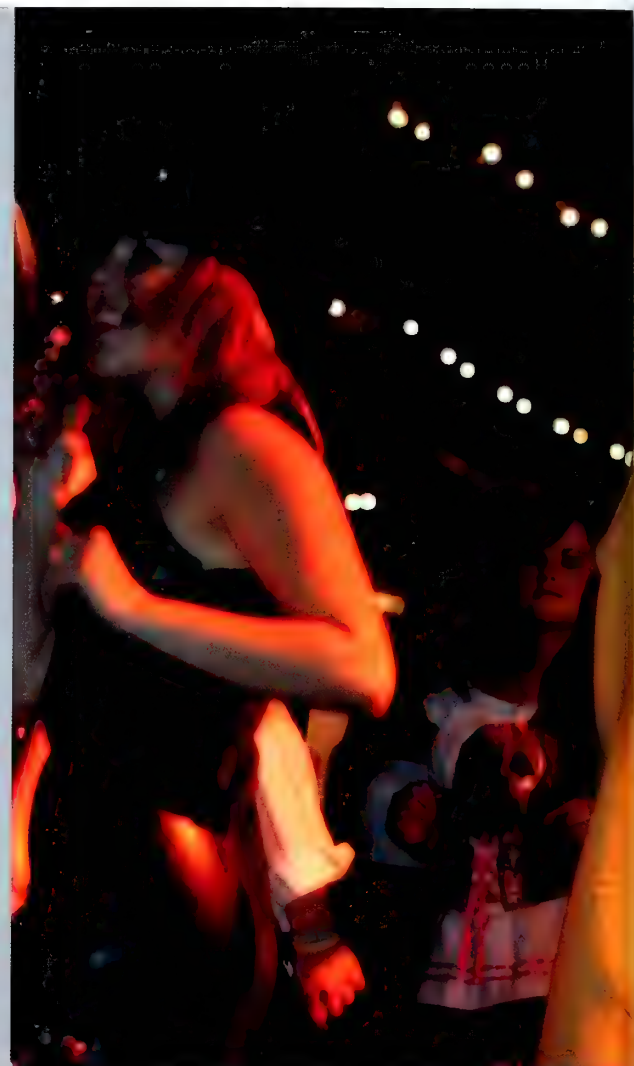

Fall Formal, which went down late October 2001, marked a new mixture of costumes and dance moves. Things got a little crazy when costume malfunctions took place, and dance moves had to be altered, because some outfits were a little awkward. However, the general consensus was that Fall Formal was a blast!

Pictures are complement of Brett Stokken

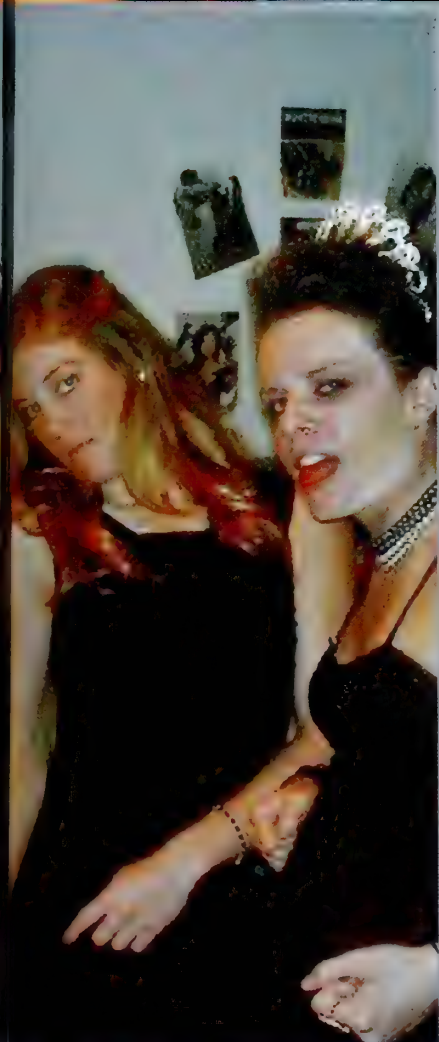

"I loved getting into the Halloween Spirit with my friends and then dancing all night!"

-Kalya Hines, Sophomore

Students take the time to dress up and really get into their costumes! This was Regis' first year having a theme to a dance!

Dariusz HAN tests it  
 down! With everyone in  
 costume, it got kind of  
 confusing of who  
 everyone was! However,  
 the costumes added a  
 extra touch to get into  
 Halloween

Two students pose for the camera. It is  
 not everyday that you can really dress  
 up, and not act like yourself and blame  
 it on something... Like a COSTUME!!

Tempas HAN get down!! But their  
 dance moves really had to change  
 since they were together... ha ha.

A disco man gets into his disco ball!  
 With strobe lights, and crazy music, I  
 bet this man from the seventies sure  
 felt right at home!

# FALL BREAK

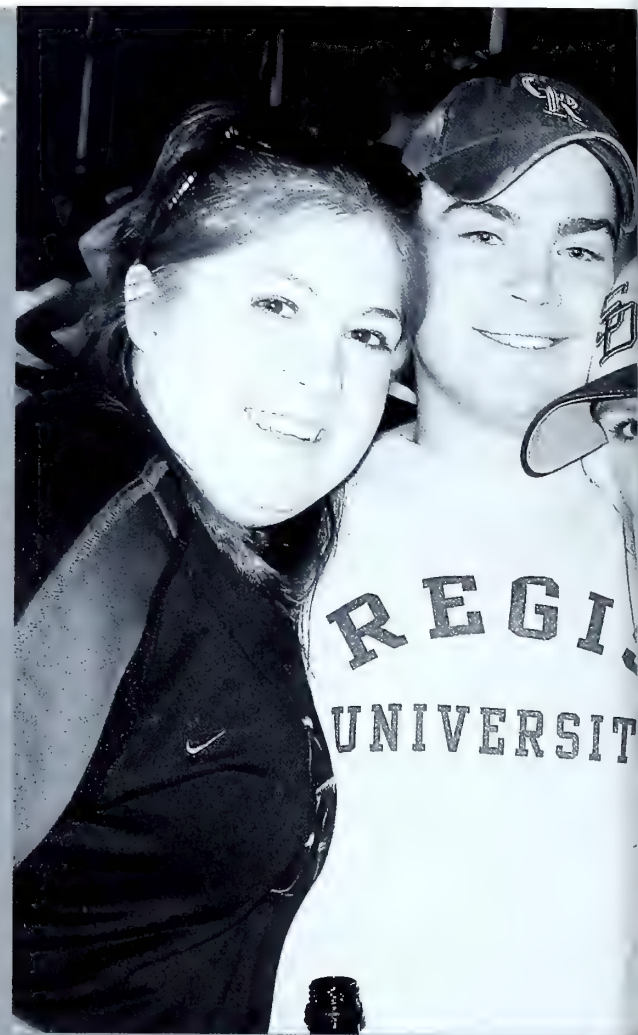

*No work and no play... makes our students crazy*

It reaches that point in the semester, and every student wants to break. There always seems to be a million things going on in each student's life that causes the stress levels to be a little larger than normal. It could be all those papers that a student put off till the last minute, or homesickness hits that awful mark... or it could be that those five midterms in a two day span are just hitting a student's breaking point... but Fall Break seems to arrive just in time. Students get a long four-day weekend to do whatever their heart desires. Homeward bound, or just some chill time with some students' newly made friends allow for students to release their stresses and enjoy, for just a little while, the amazing experience that college is.

*"With the Rockies in the NAC5 Championship, I had a very intense Fall Break."*

*Margie Leppert Senior*

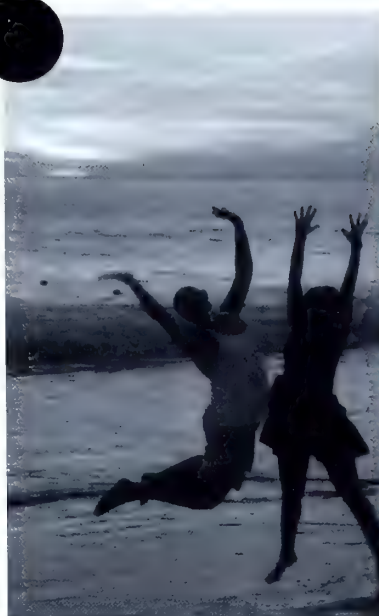

*Not your typical weekend, some students decided to take a little trip into nature. Looks like a lot of fun!*

Students enjoy fall break and are thankful for the four day weekend.

It might be Fall Break, but who says you can't go somewhere exotic and enjoy your vacation?

A student stops and poses for a picture in the beautiful landscape that is Colorado. Students who are not from Colorado, took a lot of time during Fall Break to really see the state and all that Colorado has to offer.

For those students who did their research, many Regis activities took place during Fall Break. Regis, in the past few years, has really stepped up its activities, bringing fun adventures available to every student.

# STUDENT CENTER

A LITTLE BIT OF THIS, A LITTLE BIT OF THAT

Fast forward to the end of the day, and it is time to turn a little more away from the excitement of today, as we look forward to the future and the excitement of the future. It's time to look back on the day, and the day is over. It's time to look back on the day, and the day is over. It's time to look back on the day, and the day is over.

It's a place that's interesting, and it's a place that's interesting. It's a place that's interesting, and it's a place that's interesting. It's a place that's interesting, and it's a place that's interesting.

It's a place that's interesting, and it's a place that's interesting. It's a place that's interesting, and it's a place that's interesting. It's a place that's interesting, and it's a place that's interesting.

Visiting the Student Center today is really supposed to be different. It's a place that's interesting, and it's a place that's interesting. It's a place that's interesting, and it's a place that's interesting.

"I love being able to take a break from all my classes and catch up with my friends as much as I can."

Sarah O'Donnell, Sophomore

The Student Center is the central location for very important offices on campus. To the left, a work/study in the RESLIFE office smiles for the camera. The Student Center is home to the radio station, Yearbook, Student Activities, university Ministry, Student Accounts, and of course RUSGA.

With the Science Amphitheatre undergoing construction, the Cafeteria within the Student Center acted as the stage for many concerts, and talents during the fall semester. Good thing the cafeteria has good acoustics!

Right outside the Student Centers is a nice gathering location for students to meet up with friends, or attend various club booths throughout the year. These booths are a great way to find out about how to get involved with activities sponsored by Regis. Good thing Denver has over three-hundred days of sun!

# FITNESS CENTER

## TO MAINTAIN YOUR HEALTH

There are always a few people associated with attending a very expensive university. In Ross, there are many free-living, free-spirited individuals who attend various events. On top of that, if you're free-spirited, it's an excellent gym.

Exercise may be the wrong word to use, but because of patient participation, the Fitness Center is open to a wide range of activities, including, and definitely, such as the following:

To relieve stress, many individuals decide to work out and run off some steam associated with stress, friends, and life in general. With more and more classes being offered, the Fitness Center houses various activities for those individuals who do not live the hectic life.

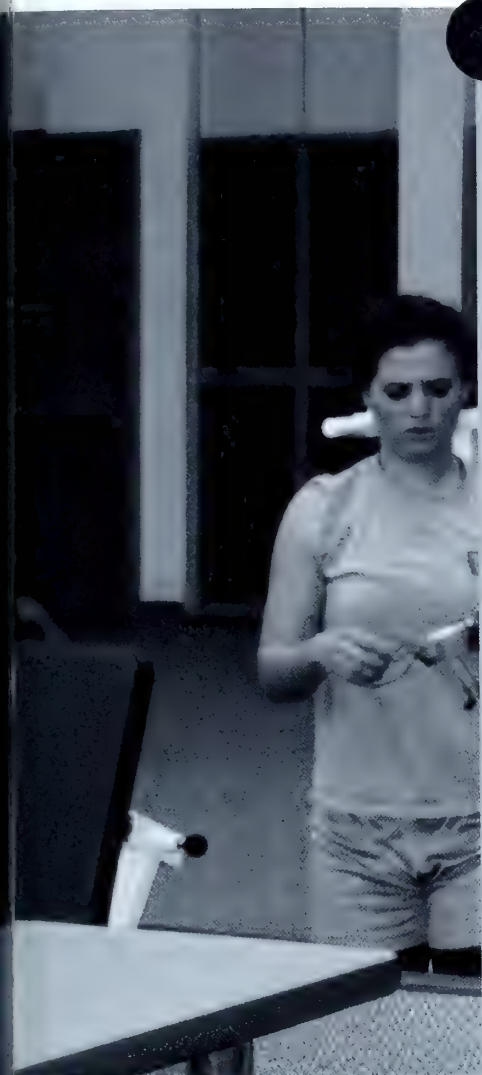

"I love using the gym! It's nice to go after a long day in class."

Andrea Berry, Sophomore

The Fitness Center houses various equipment for those who want to blow off some steam and burn some calories. Just remember, if you use the weights, make sure you are to move to that gym!

Some work study jobs may seem boring, but some of the fitness center workers really do enjoy their job. One girl says that she loves watching the "cute boys" work out. She wished to remain anonymous.

A student says and others for the campus. Work/Study students note that many of the athletes get busy around 4 PM. So if you are going, for the gym is better before or a little later.

The rock wall, which was built during last year's academic year allows for a little different activity. The wall may look small, but the weird angels make it very difficult to climb up, down, or across.

# PROJECT HOMELESS CONNECT

## PASS IT ON —

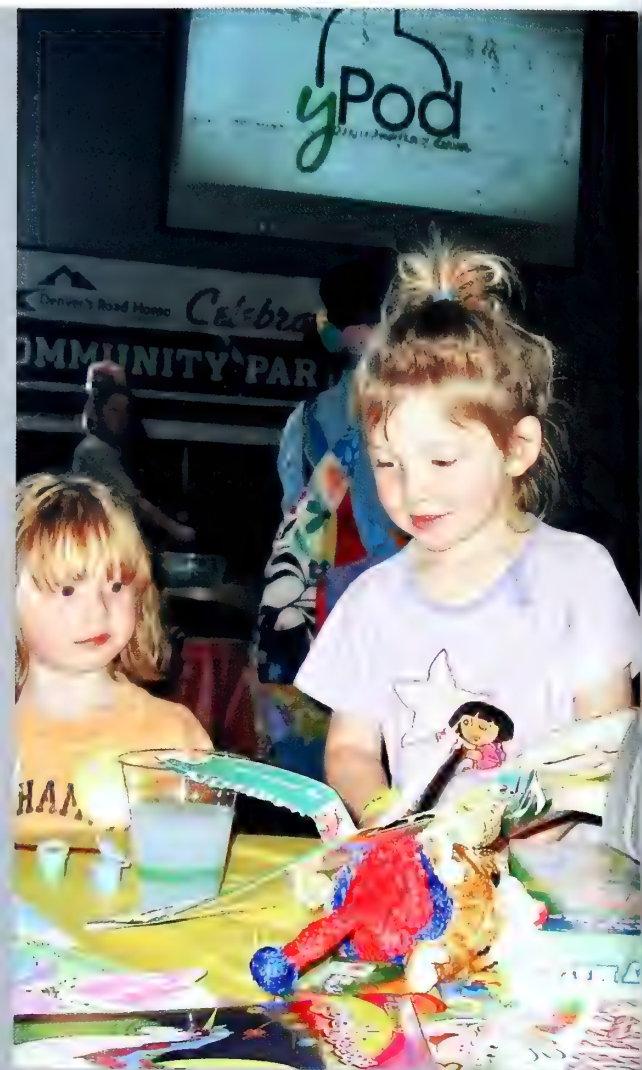

For the first time ever, Regis University was a sponsor for the city's Project Homeless Connect. Every day—Monday and Wednesday—started up from address the United States and many of whom were Regis students, to help find clothing, food, employment, and housing for individuals that are currently living in the streets. Hundreds of Regis students formed a packed room to help participate and help out more individuals that have experienced tremendous hardships. These students that helped out had to work an entire day at school, which is harder than getting a full day shift, and were given different "events" throughout the day to point in the right direction and to help these individuals access the various opportunities present to them inside houses.

The event was so popular, additional Regis students were in fact turned down from volunteering the packed event. An event that ensures great fun out in the future, what a great day to spend a beautiful Friday; a selfless attitude, helping others, making new friends, and of course a free t-shirt.

"It's great to see these people trying to change their lives. It breaks the stereotype that the homeless are lazy."

Amber Alarid, Freshman

A student takes some time to lead to a young child. With already extreme hardships present in these kids' lives, it's nice to know that someone cares. Just a kind heart offering support and attention is a great necessity for each individual.

SMILE ALL AROUND, Regis students play games and interact with the young children present at the day's event. Without the support of these students, these children may have faced even larger obstacles.

With tables upon tables of helpful information for the homeless, things seemed a tad overwhelming. With the great support of the Regis community acting as a helping hand, the flow of the day seemed to run rather smoothly.

Students were given different clients throughout the day to hang out with and help out. For the youngest kids that attended the event as the clients, they were able to participate in art projects with community members from around the Regis community and the country.

Students who volunteered did so because they felt the need to give back to the community. Project Homeless Connect showed tremendous potential to the city of Denver. Hope grows to complete the Mayor's plan to end homelessness in Denver in ten years.

# WINTER BREAK

## BACK HOME AGAIN

Winter Break is a well deserved break for all Regis students. After a long semester with winter break is a well deserved break for all Regis students. After a long semester of homework and challenging classes students are then tested to the limits with a grueling week of finals. After the papers are turned in students are free for a four week vacation.

Many students return home to spend quality time with family and friends. While on break students are able to venture out and travel. Some of the vacation spots included Las Vegas, Cancun and even El Salvador. The Romero house traveled to El Salvador over break in efforts to outreach to the people who live there.

After a relaxing break students return to Regis for another exciting semester.

"I had a great break! I sailed the seas on a cruise with my family! I was not ready to come back to school."

Millie Noek, Senior

Classes may not be in session however there are still a select few who are at school planning for a fun filled second semester.

SMILE pretty for the camera!

Matt enjoying some of the local cuisine!

Some Regis students took in caffeine  
a photo while in El Salvador!

Jackie Fulkrod and her boyfriend  
Patrick traveled to Las Vegas.  
While there they took a tour of the  
Coca-Cola factory.

El Salvador was a wonderful  
experience for students from Regis.

# BEST OF COLORADO

WELCOME TO THE MILE HIGH CITY

Every year, a new Freshmen Class enters Regis University. Although many are from the surrounding Denver metro area, about fifty percent of the class is from out of state.

There are so many students that are not from Colorado, that Regis University began a program that brings the new freshmen face-to-face with one of the many outdoor amenities that Colorado has to offer. From white water rafting, to sporting events, incoming freshmen have the opportunity to explore the various activities that make Colorado famous.

Every month, students get the chance of attending an event that explores the outdoors, or any one of the many famous facilities in the state of Colorado.

"My favorite activity was white water rafting with my roommate! It was a great start to my first year in college."

Cristina Anderson, Freshman

Freshman and transfers journey across the Colorado landscape, enjoying the beauty that is a great part of the Colorado experience.

Looking out onto the water, one student takes some time to think about the upcoming academic year. College is a big transition, but it is easier with new friends.

Most freshmen come here with a lot of excitement. The Best of Colorado is a great way to get to know friends and explore the outdoors that you love.

A freshman enjoying the view and the water from a bridge.

Best of Colorado is a great opportunity for freshmen to get out and explore the best features of Colorado.

# FAMILY WEEKEND

MOM AND DAD VISIT ...

Living away from home for a while, a weekend comes in at a lot of times when you don't have the days for fun, not Friday, Saturday, and usually Family Weekend.

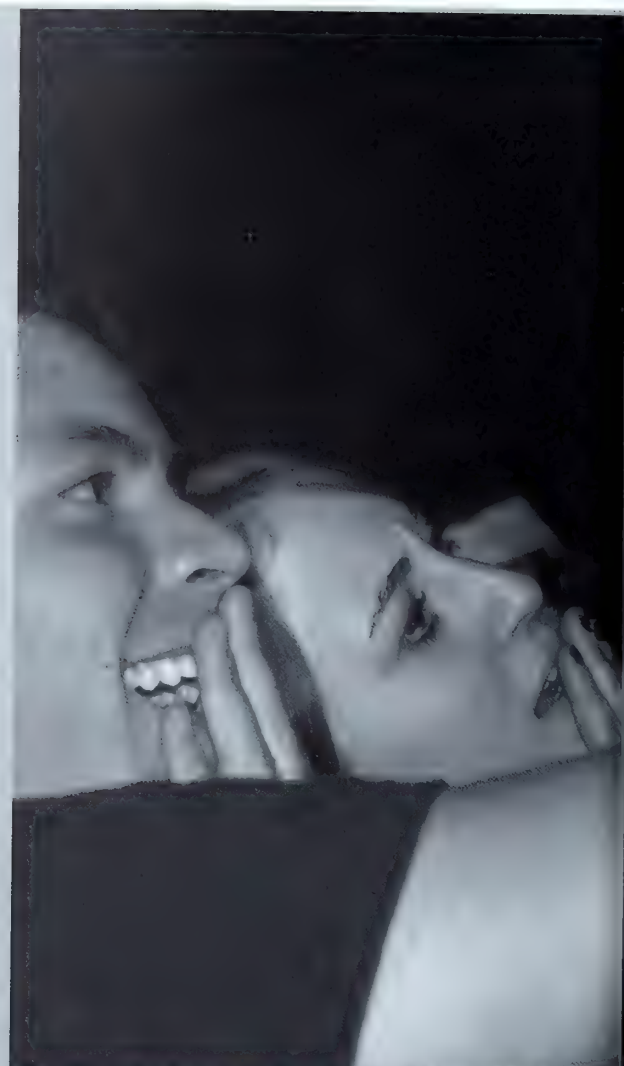

Family Weekend invites parents of all students that attend the University, to join their children for a weekend to explore what Peapack and the state of Colorado have to offer.

Whether to be Speakers, emcees, hosts, or making Family Weekend is a nice break in the semester so that homesick students can see their parents, and over-protective parents can see their children. Yes, sometimes parents can be a little overwhelming, but it is always nice to see mom and dad, to give them a hug, share some memories, and maybe even score a few groceries for the upcoming cold months.

"Studying ahead first semester I could have used a Family Weekend!"

Margaret Walden, Senior

Parents and their new college students take a hike across the great Red Rocks State Park.

With the various activities that our support during Family Weekend, it is no wonder some students have to rest and play with amusement. It is always great when parents visit. Even the food in the cafeteria tastes better!

Living in the dorms is an exceptional experience. Community Living is a hard factor for some to adjust but with family weekend it makes the transition a little easier.

Two students obviously miss their "home" original! Many students were happy to leave their homes and live in their own, but it is always nice to see Mom and Dad again!

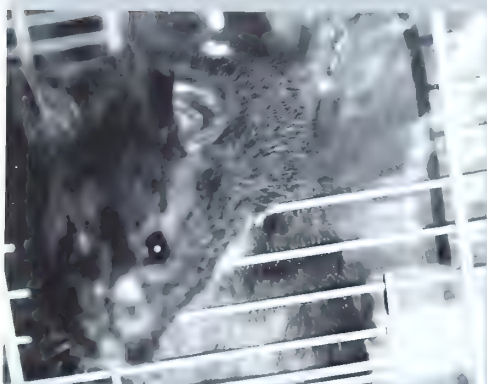

A Group of hikers take a break from the terrain to relax and take in their surroundings.

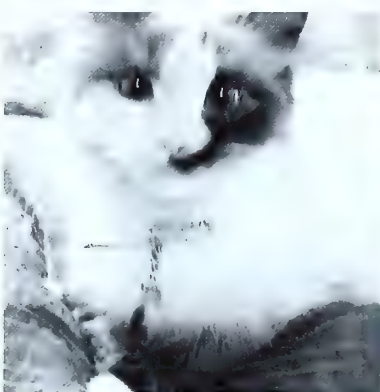

# FAMILY PETS

When we go off to school in the fall not only do we have to say goodbye to our parents and siblings but also our pets! They are always in our corner. They always greet us with welcoming excitement no matter how long we have been away. Here's to all our pets who know just where to lick or nuzzle when your having a bad day!

# CONSTRUCTION

David Finch SMF

Construction has made it a little harder to access the right decks to Denver... but in the end, it'll be worth it. Stearns will get to sleep in lounge once the construction is done.

One last look at the old Science Building during its final days. Once over, the newly updated Science Building will have state of the art science facilities, as well as a brand new, shiny rooftop.

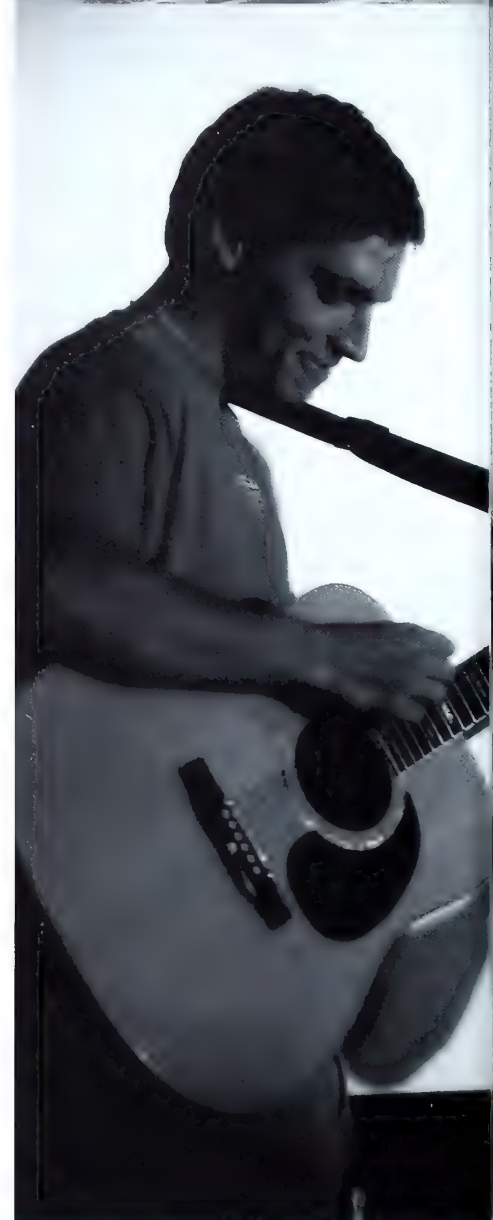

During the 2007-2008 academic year, new updates were made to the Chapel, West Hall, and the Fitness Center. The climbing wall, pictured to the left, has allowed students to participate in alternative exercise... indoors!

Students Excitedly await the new updated central Science Building, and while students like the newly going to enjoy their new amenities within the Science Building. Not to mention sitting through classes will be a lot easier.

The lovely construction has blocked off many walkways throughout campus, making getting to class a little more inconvenient for all those lazy students. It will all be over in December, with the updated Science Building opening for classes second semester.

Top: Off Road Club ventures out on trips to the unknown.

Above: Everyone knows about Thursday Thrills, the most exciting thing that happens on Thursday nights.

Thursday Thrills has talent shows to dance your cares away.

Bicyclists roam the beautiful outdoors in the Outdoor Adventure Program.

Making hamburgers and promoting Regis' clubs, students come out to have fun.

## CLUBS DIVIDER

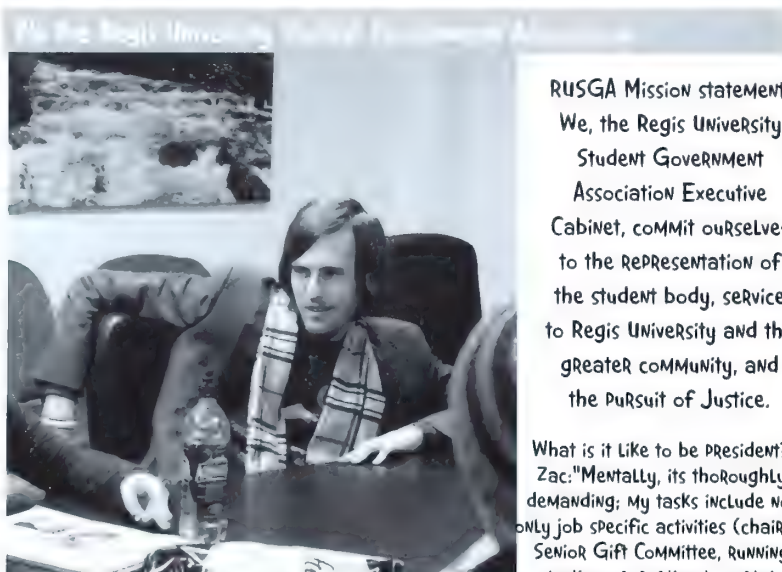

---

# RUSGA

Regis students are proud to have the students making sure that changes are made to campus. Regis University Student Government Association members are elected by your votes and represent you. These students are very well known on campus and are very hard working. Without them many events wouldn't take place and our voices as students wouldn't be heard.

Student Body President: Zac Garthe  
 Vice President: Marcus Trullo  
 Chief Justice: Trisha Curtis  
 Director of Communications: Kevin D'Brien  
 Director Social Justice: Rachel Putt  
 Director of HAC: Mo McGoff  
 Directors of PAC: Jamie Garrett  
 Director of MAC: Jacob Sandoval  
 Director of SIC: Blaine Miller  
 Director of Finance: Aaron Mejia  
 Director of Community Involvement: Kathryn Redmond

RUSGA meets weekly to set up programs to get you involved.

**RUSGA Mission statement:**  
 We, the Regis University Student Government Association Executive Cabinet, commit ourselves to the representation of the student body, service to Regis University and the greater community, and the pursuit of Justice.

What is it like to be president?  
 Zac: "Mentally, its thoroughly demanding; My tasks include not only job specific activities (chairing Senior Gift Committee, running meetings, reporting to certain administrators, etc...) but also supporting and keeping track of everything that everyone else is doing. I'm in charge of a cabinet of 8, and I work closely with my Vice President (Marcus Trullo) and Chief Justice (Trisha Curtis). ALL of these people have numerous personal projects and duties that I help them with and we collaborate on. Then we all work together on committees to put together school wide programs and improvements. So I work on personal jobs, individual cabinet member jobs, and rusga wide projects."

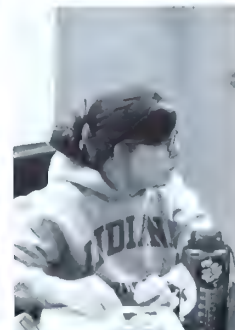

What is the biggest goal for RUSGA this year?  
 -"To Look good. Encourage student involvement and to set up new Programs."

Mo and Rachel not only do RUSGA, they also are Majoring in Nursing. Wow

On some Meetings RUSGA Likes to do FUN stuff, Not all work.

This is just what RUSGA does best: they are hard workers and are dedicated.

If you could sum up RUSGA in one sentence:  
 "RUSGA is the greatest assembly of superheroes ever known."

## LEADERSHIP DEVELOPMENT

Leaders are born every day. Leaders are also developed over time. At Regis, the Leadership Development program encourages leadership and all the qualities that a leader should have. Leadership is an important quality to have in life and in a career. The program was made to prepare students for the real world by developing leadership qualities with retreats and classes. Going through this program is beneficial and valuable to all students.

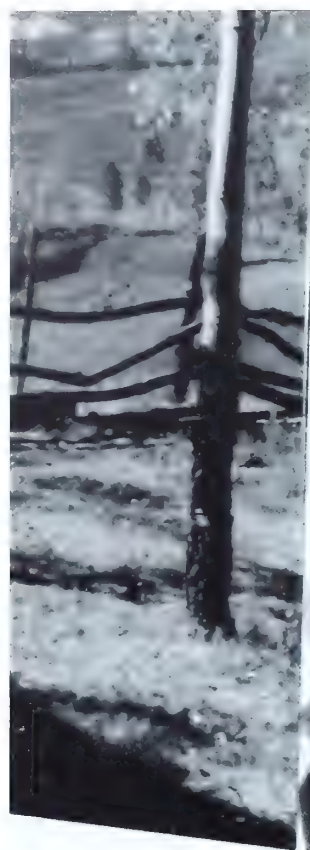

Dan Van der Vieren reads for Leadership Development program at the Institute of Flow.

One of Leadership's workstudy employees Emily Fogg smiles openly for the camera.

Angela Mendez is so happy to be in Leadership Development.

Jared Polis and Leadership Students get together for a picture at a Dinner and Dialogue.

For Leadership and Creativity, Ashley Alcala talks with students.

In Leadership and Creativity Anne Reinking, Paul Spencer Adkins, and Alex Mackay dance as part of showing some Leadership skills.

Leadership Development at Colorado Outward Bound.

Leadership Program drawing at the Institute of Flow.

Dr. Erickson, Walt Anger and Cathy Stevens-Thurman at Leadership Learning Model Session.

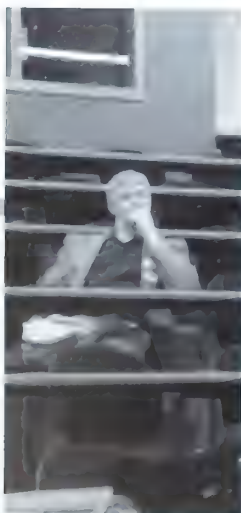

# CHEMISTRY CLUB

What's better than hanging out in the chem lab, mixing chemical substances together, and getting away with it? Nothing of course; at least that's what all members of the Chemistry Club think. The Chemistry Club's mission is: "To Promote the development of its members by providing opportunities outside of the classroom setting in the area of chemistry, while adhering to the ideals of the Regis mission statement." Not liking chemistry? The Chemistry Club also offers tutoring every week on Thursdays for anyone who struggles with chemistry.

Acid or a base?

Let's pause now for a moment of science.

Chemistry is really pHun!

The group shows off all their chem supplies.

Chemistry is always busy and exciting.

Crazy chemists. Watch out, they pour water into acid.

Trust us. We're chemists.

Wow photons have mass! Did you know they were Catholic?

Students stand in the new hall of the science building, waiting for that exciting day of chemistry to begin.

# CHOICES

Choices is a club with some attitude. At Regis, they have a major impact on students and their "choices". Choices deals with topics such as partying, smoking and drinking. They inform students of alternative ways to have a fun and to refrain from doing things that could have major consequences. They also teach students to make good choices in their everyday life to make it healthier and better.

Here's some students doing an activity teaching about drinking.

Learning the consequences of drinking and driving is important.

Reality Bites.

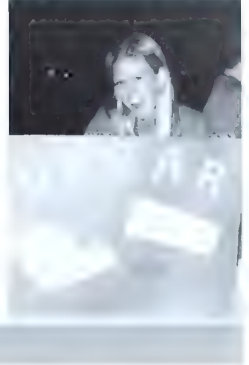

Give Me a big hig!

The unbar: where you get drinks with no alcohol.

Choices puts on many events to promote good health and choices.

Looking all nice and professional, Choices club sets a good example to all students.

Being very and having fun, we choose about lifestyle, their friendship and teamwork.

# SPRING BREAK

Spring break is a time for relaxing and taking a break from the rigorous courses at Regis. This year there were many opportunity's for students to take a trip to an exciting place. Just to name a few: The Canyonlands biking trip, Mexico, Mississippi and Florida. All who participated had a wonderful experience and would love to attend another school sponsored vacation in the future. So if you were on your way home or on your way to an adventure spring break is a great time to get over that spring fever!

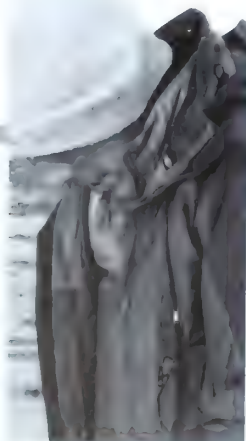

MID SEMESTER FUN...

Getting ready for another ride!

I didn't expect it to be so cold!

Bundle up it can be chilly!

## RESIDENCE LIFE

The office of Residence Life employs around forty Resident Assistants each school year. RA's are student staff members that oversee a certain number of residents. RA's serve as a support system, a resource, and a activity coordinator. They also help enforce the student handbook. Resident Assistants become role models for all the residents that they look after. The staff for Resident Life make living at Regis enjoyable and possible.

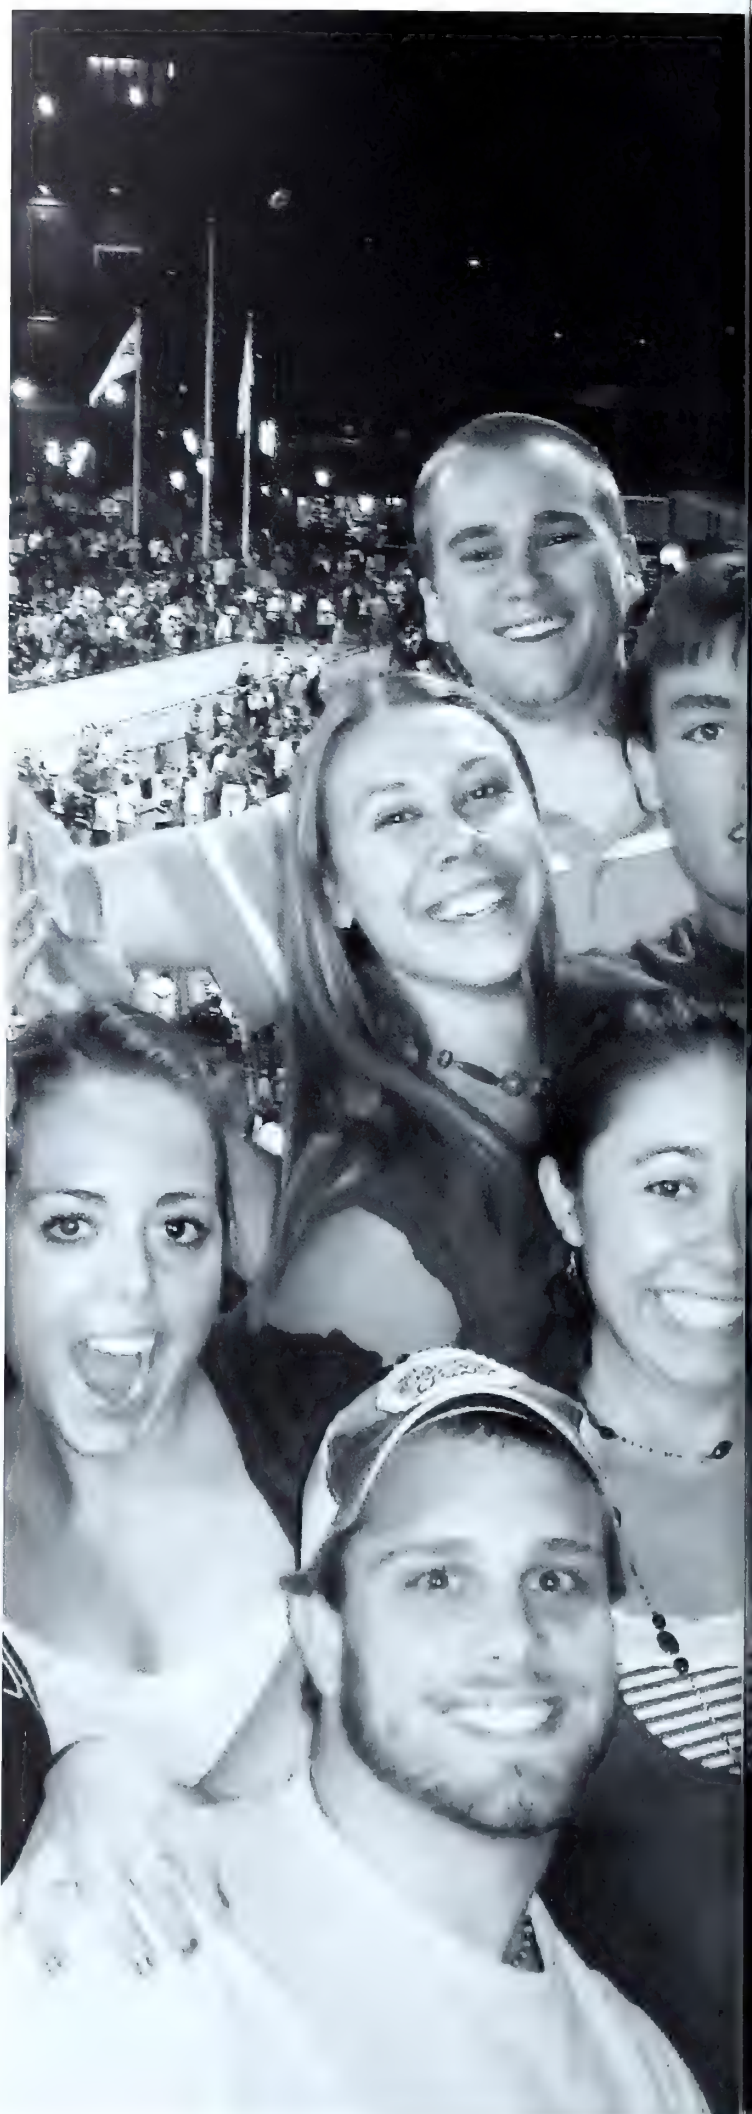

The crazy things RA's do  
for entertainment!

The Love we have for the  
camera

Go Rockies!

Resident Staff and Residents at a Rockies game.

Peace

Staff and Residents go on a trip.

They may look tough, but they are not for the residents.

## ROMERO AND HOSPITALITY HOUSE

The Romero and Hospitality Houses are off-campus school residences, where students work together to help benefit the community surrounding them. The Romero House is located in the Highlands neighborhood of Northwest Denver. Fr. Vince D'Fiaherly founded Romero House in 1992 in hopes that students would help the poor. Romero House gives students the opportunity to experience one's education, faith, and the life experience of the poor. Hospitality House is a small group of students that live in a off campus house that arrange hospitality after the 7:30 p.m. Sunday Mass, host a CLE for students living off-campus, and coordinate Friday evening programs with Salt and Light. Both groups hold open house nights that invite students to spend time together and have a great time.

All students are invited to join in the activities.

Sitting around and having a great time is not what it's all about. That's the great part about these houses; they are here for the community.

Cards anyone?

Going out the restaurants is included in the many activities that these houses do.

Smile!

Hey boys, don't be shy!

At the end of the day, saying goodbye is just as hard to do when you've had too much fun.

Not only do you have the opportunity to make memories that last forever, but you also have a lifetime of fun.

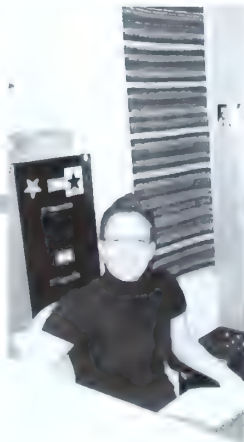

# SERVICE LEARNING

Most of us have Service Learning as part of a requirement for a class. Service Learning is a lot more than a class. It's a great opportunity for Regis to help out the community and others. Service Learning opportunities do not just end in the classroom, there are other ways to serve the community. There are alternative spring break trips to Mexico, Africa, and the Wind River Reservation. There are also many events that promote peace and justice. Service Learning is not community service, it's a chance for human beings to give to the community in a way that not only benefits others but also themselves in more ways than one.

Helping others is one of the greatest things to do.

Working hard in the office finding new opportunities for students!

Whatever thy hand findeth to do, do it with all thy heart.

Regis sends students to various Places where they are needed.

The Service Learning office is such a friendly Place to visit!

Volunteers make Christmas decorations.

Service Learning doesn't have to be all serious, Making crafts and having a good time can be service Learning too.

The people you meet while doing service Learning can enrich your life.

# SNOW WEEK

Regis' First Snow! When the first big snow hits the ground, everyone on campus knows that Snow Week is not far. During Snow Week at Regis, the ground is not always covered with snow. Snow is not a requirement though for a fun week of exciting activities and events.

Events such as a Snow Ball dance, games, and contests. Regis' student activities worked hard to make this year's Snow Week fun and memorable.

Watch out girls, these men are all dressed up and hanging loose.

I Hope this is worth the prize I'm getting!

Is that your final answer?

Talent shows were also a part of the fun activities.

Here are our RAMBLERS putting on a show for SNOW Week.

Beautiful, Ladies!

The SNOW BALL was a great night.

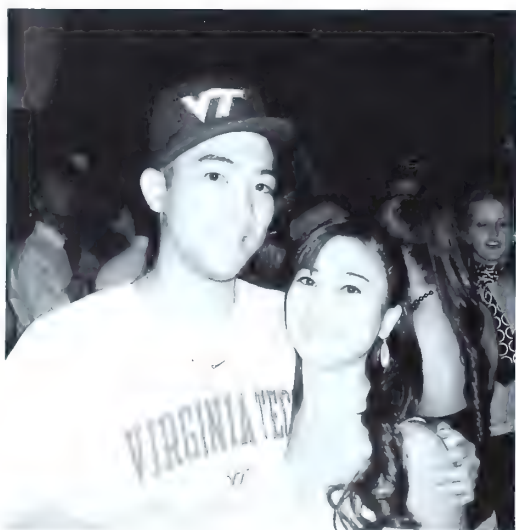

At the SNOW BALL, DREW GARRA WAS PICKED.

# APAA

APAA stands for Asian Pacific-American Association. APAA was founded to foster diversity, eliminate ignorance, and educate others about the Asian culture. APAA provides ethnic activities and communities that celebrate Asian heritage. The club helps provide an atmosphere of community within the University and the neighborhood that surrounds Regis University.

Peace! That's what its all about.

At Meetings of APAA they think of better ways to promote community... and of course eat.

Hello!

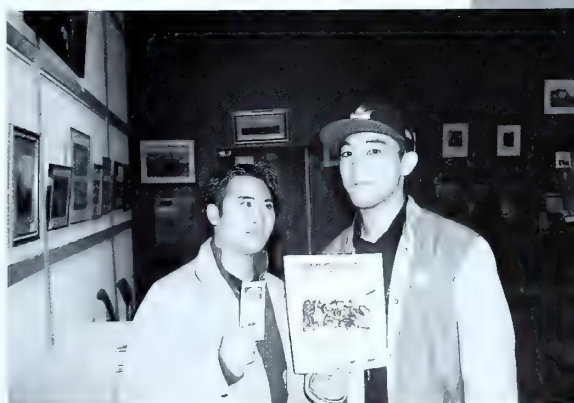

Asians Unite!

Of course, you don't have to be Asian to join APAA group. Anyone who wants to promote diversity is welcomed and encouraged to join.

These students went out to eat and had a crazy time!

Proud to be Asian American.

A meeting of great minds.

# MI GENTE

The Mission of Mi Gente is "To create Hispanic awareness at Regis. Provide education about issues pertinent to the Hispanic students while also serving as an aid to the University in its efforts to recruit and retain Hispanic students."

Mi Gente has been around for 3 years, and it has had a big impact on Regis. They organize events that celebrate Latino culture. Also, they have regularly scheduled meetings that everyone can come to and are welcomed.

Mi Gente coordinates many cultural events, like this one, that enhance Latino culture on and off campus.

Mi Gente is a chance to make great friends.

Muy guapo

Mi Gente welcomes  
Not only Latinos but  
anyone else who  
wants to learn and  
celebrate Latino  
culture.

A Mariachi band serenades at  
Regis.

Peace! Students make hamburgers to  
promote Mi Gente.

Making  
friendships is one  
of the many  
highlights.

# NSCS

National Society of Collegiate Scholars education needs. The co-president Ashley Brown has organized a day for middle school students to come to Regis and shadow a college student. This is a great opportunity for the young generations to see what college is all about. NSCS is a great club and has been a huge success at Regis University.

NSCS has also started a new tradition at Regis. NSCS is about encouraging others to further there

Here's a Little Cutie!  
This little duck was one of the many kids that NSCS gave treats too.

Melissa Nix was the keynote speaker for the induction of new members.

Here is the banner that represents the Regis Chapter.

New Members are asked to take a Pledge which they then commit to upholding the truths of the club. Members were asked to join the club based on academic Merit. it is an honor to be a Member of the NSCS club.

Here Jackie Fulkrod hands out candy to an anxious trick-or-treater. How Cute!

The NSCS officers take a stand by the banner for a quick shot.

Here are some Kids who were at the Museum to receive candy from the President of NSCS Ashley.

New Members wait to receive their award.

To the left we have another student at trick-or-treat street passing out candy in the Museum.

# J-CRU

J-CRU is a religious club for all those who believe in it's mission. The mission of J-CRU is: "To spread the Gospel of Jesus Christ through fellowship and service as an interdenominational Christian organization." Anyone is welcome. They do many fun activities that help Christians create a fellowship with one another. Religion is an important part of many students lives. Sometimes with all the business of college, most forget it. It is nice to know that there are clubs at Regis that help students get involved with Religion.

SMILE Pretty for the camera!

Creating fellowship with one another and with God, is a wonderful thing.

SMILING. The natural way to improve your looks.

A group photo to capture  
a Memory!

Work Work Work!

Nice snapshot!

Nice Pose Ladies!

Lovely costumes Ladies!

Bing Bing Bwyl

# J BOARD

JBoard is the student judicial board on campus where students can come to have their disciplinary concerns heard by a board of peers. The board holds a full hearing (which greatly resembles the standard judicial system) and then comes to a decision. It is composed of a Chief Justice, four associate justices, and two student advocates. The Chief Justice is an elected official who helps lead the student government executive cabinet in collaboration with the elected President and Vice President. The associate justices and student advocates are interviewed and appointed by the Chief Justice and then approved by the Senate.

Chief Justice: Trisha Curtis

Associate Justices: Ryan Martinez, Marisa Texidor, Josh Bablonka, Steve Troxel, and Kevin Karr

Student Advocate: Will Gohl

## MULTICULTURAL EVENTS

Multicultural Events is sponsored by MAC, Multicultural Awareness Committee. Their main focus is to support and embrace all cultures. Being apart of this club helps celebrate and acknowledge differences in everyone. The club goes on retreats and to numerous events that addresses cultural diversity. Because of MAC, Regis University is a stronger community.

These people don't look too happy, but don't let that fool you. They are having a blast.

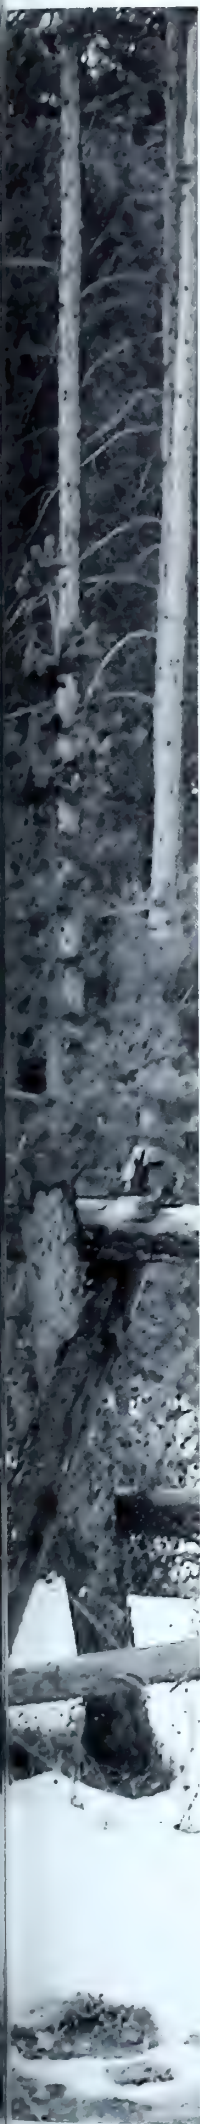

Supporting each other and our differences is how long lasting friendships are made.

SNOW BALL FIGHT!

Playing a good ol' game of cards. What's a better way to have fun?

Wonderful Smiles Ladies!

MAC sponsored a retreat into the beautiful Colorado Mountains.

Multicultural Events is about celebrating each other differences, but also just having fun.

# THURSDAY THRILLS

Every Thursday night students come from far and wide to come to a spectacular event that amazes everyone who comes to it. What is this awesome event that has people talking? Thursday Thrills. Thursday Thrills is put on by RUSGA and special events are planned to make every student entertained and in awe. Events such as the regurgitator, movie nights, talent shows ... the list goes on and on. Don't miss these exciting events.

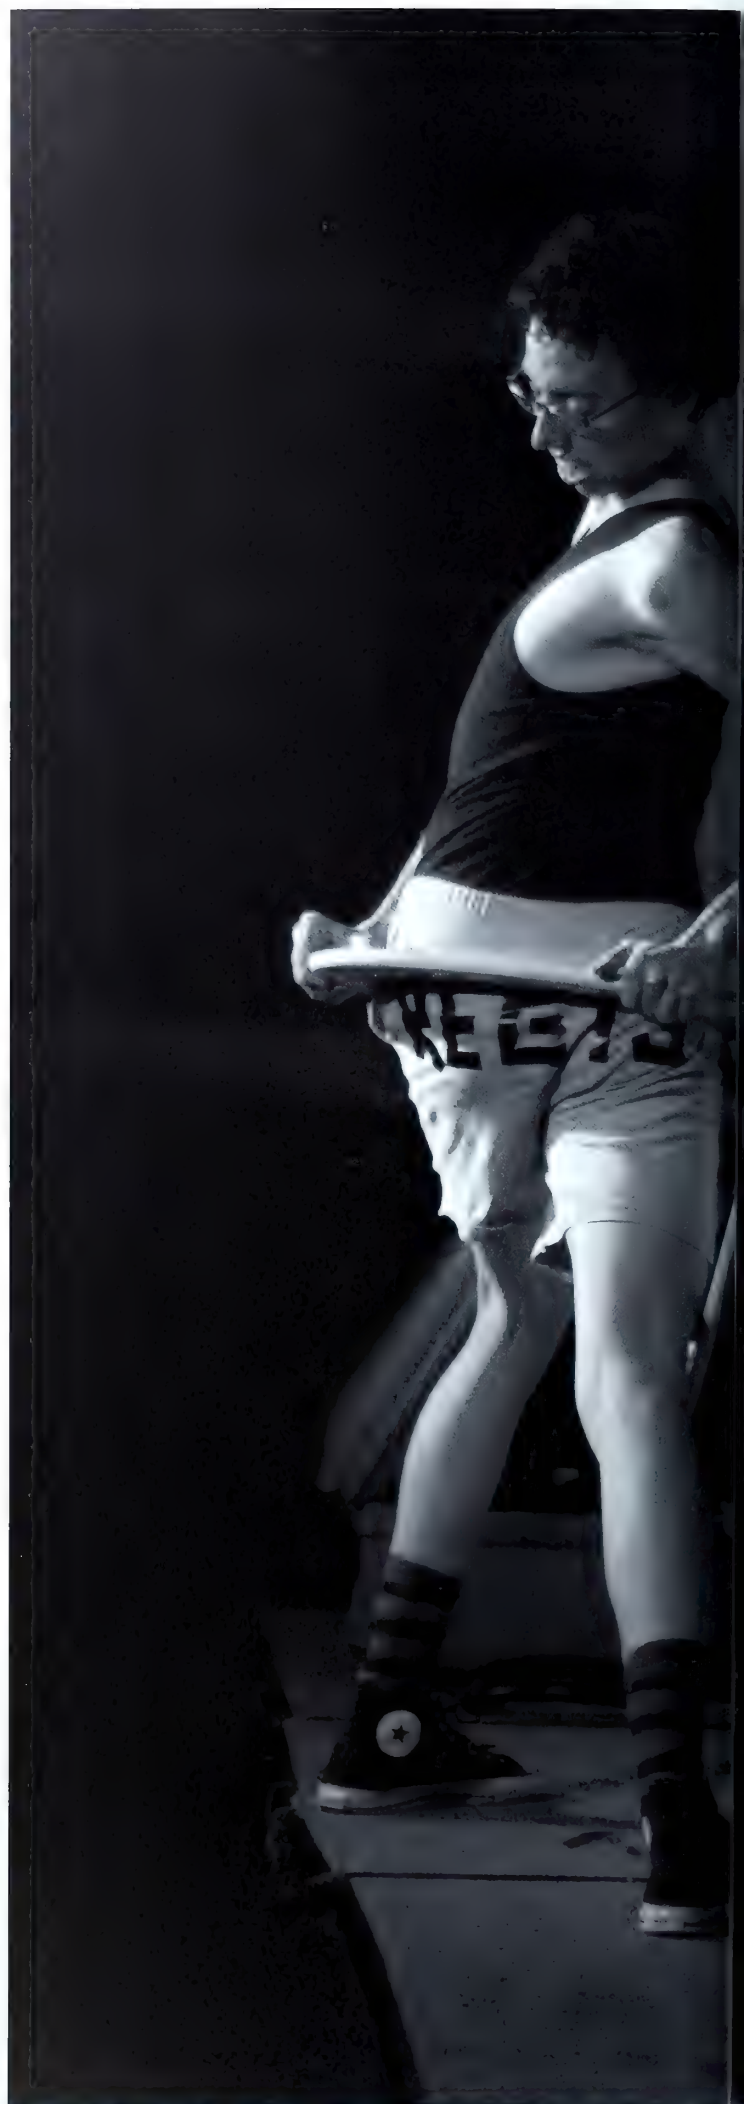

Singing and dancing in box costumes has exciting written all over it.

The question is not where she learned those dance moves, but rather where she got the costume.

Do the Twist!

Looking Like a band from the nineties, this group for the talent show danced in fashionable attire.

"Hello, Hello, is this thing on?"

Singing her heart out, this student captivated the audience with her voice.

Me?

I can do anything better than you.  
GIRL POWER!

Just Kidding!

## ROMANCE AT REGIS

Love is in the air. It's the only thing that there's just too little of. Love is blind. Love lasts a lifetime. Where there is love there is life. Whatever your philosophy of love may be, love IS in the air at Regis. Whether your special someone goes to Regis or not, they are here for you when classes and life seem to get you down. As long as you know that they are there to love and support you, you know you can survive college.

Jackie and Patrick at the Phantom of the Opera in Las Vegas!

Brandon and Mikaela.

Here is Megan and her  
hubby, Brian hanging out.

John and Christina are  
still kids at heart and they  
make such a darling  
couple!

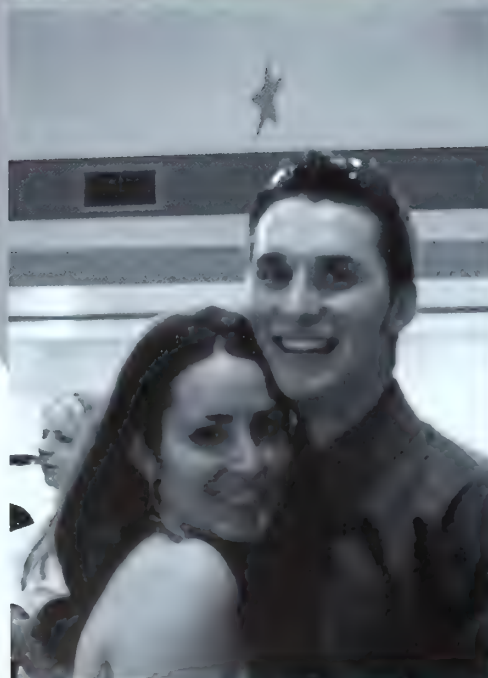

Christine and Kyle at a  
formal function in Denver

Neomi and Zach in the snow.

Jennifer and Ryne together  
for three years!

Look how cute Bobby and Mary are!

Max and Andrea at a  
wedding

## FITNESS CLUBS

Working out is such a hard thing to do. Especially with homework to do, school to attend, and all the other miscellaneous things that we all have to do. For all of us to be healthy and fit, we need to find a way to exercise. For some, the fitness center at Regis is a wonderful tool to get in that much needed time to work out. The fitness center had two clubs that anyone can join: the rock climbing club and the Irish step-dancing club. Both are fun and addicting. Come and check them out sometime, you will be glad that you did. Your body will be thankful too.

Students between classes come and work out at the fitness center.

Reach for the sky... Coming to a class or just working out clears your mind and helps you focus better. The more the reason to come to the fitness center.

People who come to the fitness center know the benefits and come on a daily basis.

Regis's Fitness center has many machines readily available to all students and staff with ID.

An instructor teaches the proper way of stretching out your back and moving properly.

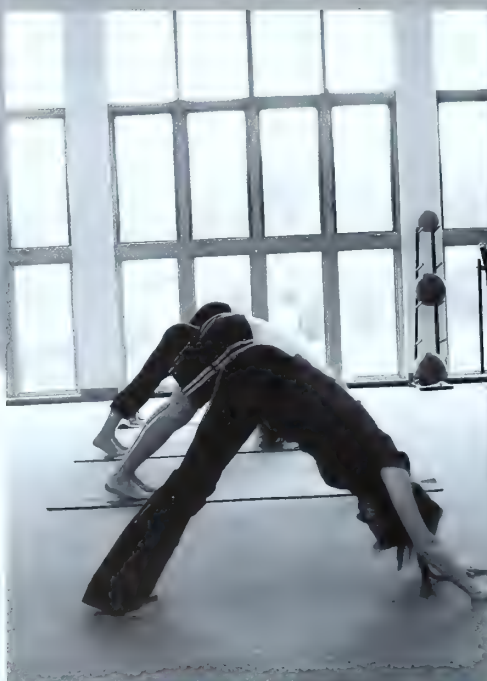

Who's afraid of heights? Not the people in the rock climbing club.

Yoga classes are not just for students, staff are welcomed too.

The treadmill seems to be the most popular work out machine.

Stretching your back in the gym isn't something you usually would want to do, but for a great body...

# OAP

The Outdoor Adventure Program is not for the weak at heart. OAP travels, climbs, hikes, and survives the outdoors. Their mission is to participate in activities that promote spiritual reflection and leadership development. They are guided by the Ignatius tradition: "Finding God in All Things." What better place to find yourself and God than in the beautiful outdoors. OAP members hike in Utah, climb mountains, rock climb, go white-water rafting, camping and many other exciting things. OAP is led by Patrick Hill. Pictures by Shy Guy.

## Rock Climbing

"Great things are done  
when men and  
mountains meet."  
-William Blake

Ain't no Mountain high  
enough...

Being one with nature,  
that's what it's all about.

After a long hike, you would think a smile would be the last thing on this man's face.

Ah, food. The fuel for the long trips through the great outdoors. Students chill and enjoy a well deserved lunch.

Victory after a hard day of Mountain biking.

The throwing of snowballs is a newbie tradition OAP stands by. You've been warned.

Look out below! Reaching the top is the greatest reward.

# YEARBOOK

Dear Liz Carr, Tye Delaney, Nicole Gendill, Mollie Nock, and Charlotte Rivers,  
 I think you for a wonderful year working on this yearbook. Each of you  
 were willing to put in 100% and we were able to complete the book on time! As  
 the editor I hope you all know how much I appreciate all of your efforts this  
 year. You did a great job with each of your sections. I have enjoyed working  
 with each of you as well as getting to know you. We will miss Liz and Mollie  
 next year and wish the best in all of their future endeavors. Thank you  
 again for everything you ladies put into the yearbook. I appreciate it from  
 the bottom of my heart. I congratulate each one of you on a job well done.

Sincerely,

Your Editor-in-Chief

Jackie Fulkrod

Mollie Nock - Editor

At our summer training Mollie, Liz, Charlotte, and Tye  
 all paying attention while learning the new volumes  
 program.

 Starbucks at our meeting  
 planning the cover  
 details.

Liz, Charlotte, and Tye smile for a quick snapshot as we go to dinner in Dillon.

At Wendy's after our training with Alyce.

Charlotte, Mollie, and Nicole busily making posters for picture day!

Trying to get business done at a meeting.

Charlotte taking a snooze on the way home. Don't mind her! It was an early meeting!

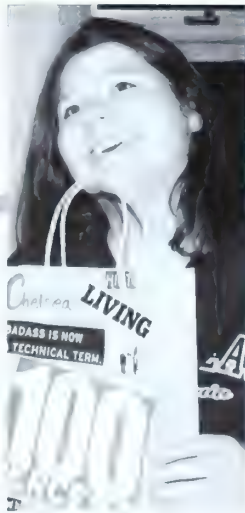

# HIGHLANDER

Who creates and writes the best newspaper in the Denver area? Look out Denver Post, The Highlander is coming. The Highlander informs students, faculty, and visitors what is going on around campus and about upcoming events. Not only that but interesting articles to read that will definitely give you something to do in you know who's boring class. Give it up for those who work at Highlander, they do an awesome job.

Editor-in-chief Maricor Coquia, and staff reporters Amy Smith and Abbey Mermis share a few laughs following a Highlander meeting.

Staff photographer Chelsea Coalwell explains her decorated "bag," the outside for what she thinks people perceive, the inside for who she really is.

Photography editor Brett Stakelin and editor-in-chief Maricor Coquia act as medical examiners for the Halloween decorating contest. The Highlander received an "Honorable Mention."

Go Team Highlander!  
Staff retreatants celebrate  
cohesive teamwork.

Sports editor David  
Vranicar, and staff writers  
Gus Maxwell and Matt  
Fisher enjoy a slice of  
chocolate cake during a  
Highlander meeting.

Graham Hunt (photography editor),  
Aaron Mejia (staff writer), and Brett  
Stakelin (photography editor), share  
a toast to a productive year on the  
Highlander staff.

Highlander staffers enjoy a  
brief hike before dinner.

Staff reporters Ed Timmins and Gus Maxwell demonstrate  
teamwork during the Highlander retreat held in early fall.

Staff writer Emily Sloan,  
Marissa Graham, and  
Shaina Dr. Mary Burt  
enjoy a break after a  
long day in a staff retreat  
held early in the fall.

# KRCX

When walking past the student center on your way to your next class, what is the one thing that keeps a smile on your face? Music and talk from KRCX. KRCX is the student radio station that lets you listen to continuous music, weekly programs, talk, and sports. KRCX is the oldest college radio station in Colorado. All the magic takes place in the basement studios of the student center. KRCX can be found on 93.9 FM on campus and for those off campus they can visit: [academic.regis.edu/KRCX/listen\\_live.html](http://academic.regis.edu/KRCX/listen_live.html)

Hello? Hello? Is this thing on?

Special guests and programs are always on the agenda.

Bringing up to date news, sports and a diverse music genre, KRCX Rocks the Rockies.

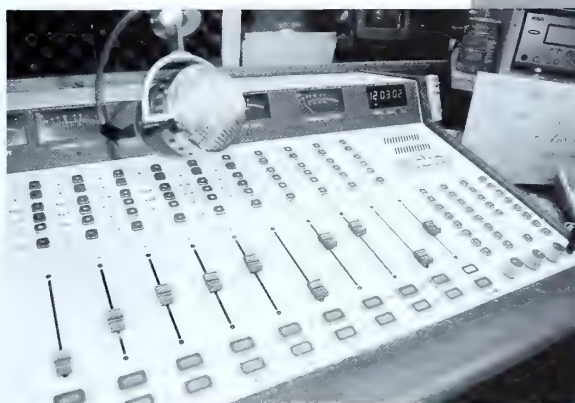

The station has up to date technology, as you can see.

In the depths of the basement of the student center, lies the room...

"Hello this is KRCX."

The radio station tries to get in Live Music as Much as Possible.

The controls. The possibilities...

Students get up and down the music.

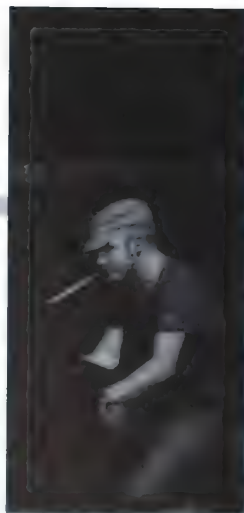

# CONCERTS

All around campus, concerts take place frequently. From Rock bands to Choir concerts, Regis is one wired place. Students are musically skilled in all music genres and make beautiful music. Regis students like to go to concerts outside of Regis also. The Fray, James Blunt, and Sara Bareilles are just to name a few of the concerts students have attended. Rock on!

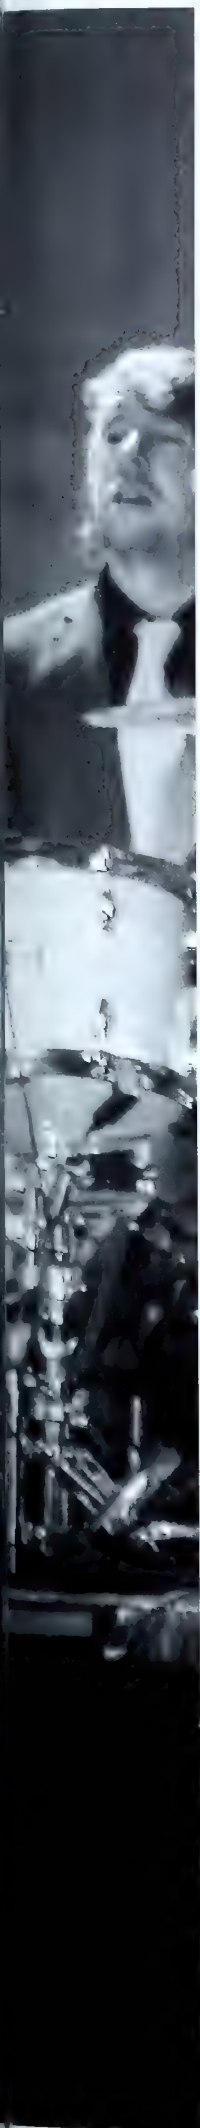

The Fray.

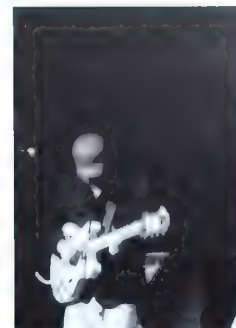

You're Beautiful

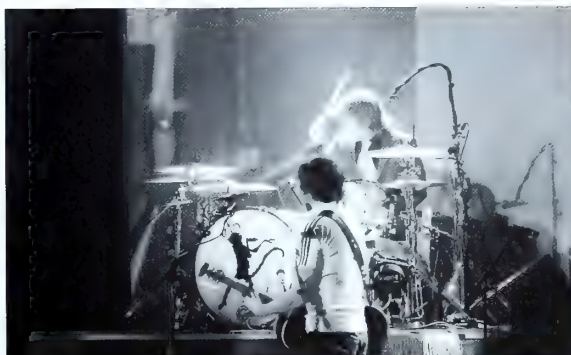

Sara Bareilles singing.  
New up and coming  
artist.

James Blunt in concert.

The Affair

Rock On

# OFF ROAD CLUB

Are you courageous, thrill seeking, and love Jeeps? The Off Road Club is the group you should get in contact with. Not only do these students have really cool vehicles, they take these vehicles out on rough terrain and trails that normal cars could not even get on. Don't have a jeep? No worries, be a passenger and watch these off road members do their thing.

Members:

Ryan Boudreau, DJ Watton, Kayla Macke, Chris Chadwick (advisor), Randy Davis, Jacob Sandoval, and Chris Schornack

Just sitting in these things are fun.

Flexin' It

Watching the members drive, you're not sure if they are sane or they're crazy but rest assured they know what they are doing.

The group together with their prized possessions. Not in this photo are: Randy Davis, Jacob Sandoval, and Chris Schornack.

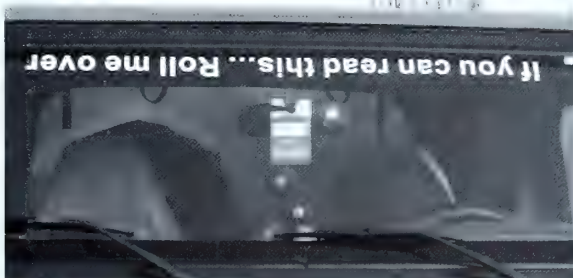

Splashing through water and getting dirty is only half the fun.

### Wheelie

Only a hard core off Road driver would have this on their windshield.

"Why is one of my wheels off the ground?"

### Let Loose

# REGIS ATHLETICS

## Calling all Athletes....

Regis University has had an amazing year in Athletics. Many of the teams performing in high standards and meeting team goals. If you were a spectator of a sporting event you were in for a good game. Here at Regis we have heart and spirit in all of our athletes. Regis is proud to have so many athletes that not only perform on the field or court but also in the classroom. Congratulations to all athletes here at Regis on a year well done.

ATHLETICS

# WOMENS SOCCER

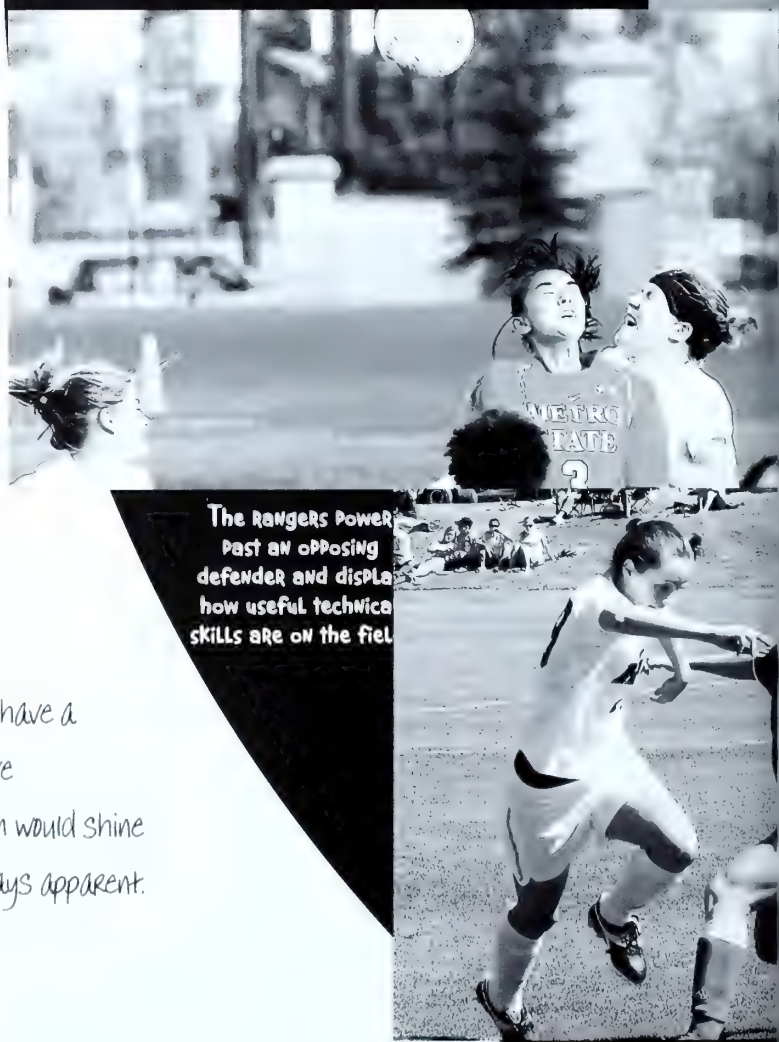

## WHAT A SEASON!

The women's soccer team had a tight season, and came out of it with a 9-11 overall score. Through countless early morning practices and seemingly endless drills together, the team grew to become extremely close on and off of the field. The team was headed by Coach JB Belzer and Assistant Coaches Kristen Geyer, Mark Fabes, and David Vaughn. This season resulted in four Regis Rangers being awarded post-season recognition awards for the 2007 Women's All-Conference. Senior Tarara Kirkpatrick, a Regis Defender received her fourth consecutive recognition, with an award for All-RMAC First Team to her many others. This season she was awarded Daktronics All-Midwest Region Second Team. Carter Carter Cornett, junior, also received All-First Team honors. She ranked fourth overall in goals and during the season was named Offensive Player of the Week. Heidi Boesma, was honored as All-RMAC Second Team, and was Defensive player of the week during the Rangers season. Senior Erin Bevalqua also received recognition for All-RMAC and was the second leading scorer on the team. The Rangers accomplished great feats throughout their season proving that their hard work paid off.

## RMAC TOURNAMENT

The RMAC Tournament was held this year in Durango, Colorado, and it was the Regis Rangers ninth consecutive year participating. The Lady Rangers played against the Fort Lewis Seahawks, but fell short with a game score of 3-0. Although the Rangers didn't have a dominating season, they did prove their immense talent, passion, drive for the sport every time they stepped on the field. Their strong team would shine through in every game. The groups overall strength in team was always apparent.

FRESHMAN Ashley Daniel sets up to kick the ball down field to her teammates. She played Midfield/Defense for the Rangers.

The Rangers power past an opposing defender and display how useful technique skills are on the field.

## Score

### OPPOSITION: SCORE:

Barry (Fla.)	WON 3-1
Grand Valley St. (Mich.)	LOSS 0-1
Omaha, Neb.	LOSS 1-7
Montana State	LOSS 1-3
Mesa State	WON 2-1
Fort Lewis	LOSS 0-1
New Mexico Highlands	WON 2-0
CSU-Pueblo	WON 3-0
Colorado Christian	LOSS 2-3
Colorado Mines	WON 2-0
Adams State	WON 6-2
Florida Southern	WON 2-1
Colorado Christian	WON 6-0
Metro State	LOSS 1-2
Adams State	WON 4-0
CSU-Pueblo	LOSS 2-3
New Mexico Highlands	LOSS 2-3
Colorado Mines	LOSS 0-1
Metro State	LOSS 0-4

SEASON OVERALL: 9-11

Alyson Russell, Freshmen, cuts in to steal the ball and dribble it down field.

Kelsey Hovden, Freshmen, passes up a defender to drive the ball down field.

Freshman Kelsey Froehlich prepared to stop the ball after a teammate passed it to her in midfield. The team not only learned about soccer skills and athletic drive throughout their season, but also important techniques in order to work together and communicate while on the field. The team bonded and soon discovered the importance of team unity.

A Regis defender quickly stole the ball and prepared to move it down field to her teammates.

Battling down the field with the ball, the Regis Rangers kept a high game stamina in order to trample their opposition.

Senior Erin Bevacqua approaches the goal and aimed to pass up the opposition and take a shot.

# MENS SOCCER

Not too late to be the heroes:

Perhaps the time for heroes is now... Cheers and applauses rose in great torrents as the Regis Rangers took the fields this season.

Sheathed in mighty blues and golds the men's soccer team stalked for victory and to build a team stronger than in years past.

To the pangs of great opposition and change, the Rangers rose from seasons past to kick their way to the RAMC tournament.

Although the tourney ended with a win for Fort Lewis, Regis fans cheered on, as their players had completed a year of eleven wins, seven losses, and one tie. But many fans cheered for their players who had finally become a team- a team that didn't give up.

Dive for it!

Goal!

**11-7-1**

Go team. A Regis Player gets a Leg up from a fellow teammate for an awesome header.

Look at those Moves!

How 'bout a Little fancy footwork?

...And he winds up for the Kick...

Get that ball!

Can you "bend" it? Regis Players can.

# RANGER

## RUMBLE!

The ladies volleyball team proved to be a strong-willed and competitive team to beat throughout their 2007 season. Overall the Rangers came away with an 11-17 season, and their statistics display their improvement and progression throughout the year. Although they did not trample the competition, the Rangers held strong and developed as a team throughout their season. Head Coach Frand Lavrisha, along with Assistant Coaches Joel List and Mickisha Hurley, structured the team into great players and a strong team to face off against throughout the season. Two Rangers received recognition by the 2007 RMAC Volleyball Awards this season. Liz Franz, junior, was awarded RMAC East Division Player of the week and was also named All-RMAC first team. Freshmen Devin Eckhardt received recognition as All-RMAC honorable mention. This season was the second consecutive year the Rangers attended the RMAC Tournament.

## BUMP..SET...SPIKE!

The Rangers faced off in the RMAC Tournament but lost their final match 0-3 against the University of Nebraska-Kearney. The team pulled together and proved they were not an easy defeat, the lady Rangers achieved 50 digs along with 14 block assists. Although they put up a great fight, they were unable to walk away with the win, but they did accomplish an unforgettable season otherwise.

Alley-OOo! And the ball flew back over the net to the opposition.

The Rangers acted quick to slam the ball back over the net!

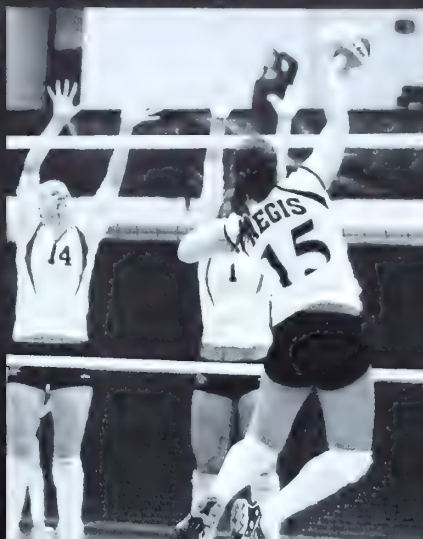

# Scores

## OPPONENT: SCORE:

Cal St. Dominguez Hill	WON 3-0
Cal State Los Angeles	LOSS 1-3
Minnesota-Duluth	LOSS 0-3
UC-Colorado Springs	LOSS 0-3

Kearney (Neb)	LOSS 0-3

OVERALL: 11-17

Kerry Grady, Freshmen  
Leaps to bash the ball  
back at the opposition!

Sophomore Meghan  
Meehan steps it up  
and proved that the  
Rangers have what it  
takes as she blocks  
the ball.

Bring it in team! After reviewing for the next play, the Rangers showed their tremendous team spirit and unity on the court during a quick group huddle.

Hannah Tautolo,  
junior, gets low in  
order to receive and  
return the ball.

Outside Hitter,  
Melissa Piazza leaps  
up to drive the ball  
back at the Ranger's  
opponents.

The Lady Rangers  
acted quick and smash  
the ball back to the  
other side.

A Ranger teammate sets  
the ball for middle  
hitter, Liz Franz, who  
victoriously returned it  
to the other team.

# GOLF

## THATS A POWERFUL SWING!

The 2008 season has yet to begin for the Guys and Girls Golf teams, but as their training and conditioning begin its easy to see that it will be an exciting season! The guys were headed by Coach Mike Kramer and the girls by Coach Paula Bauer. The Ladies finished fifth overall at the Quality Inn Maverick Invite in October of 2007, ending their season strong. Emily Einfeld, freshman, proved her strength on the course and came in her first top 20 finish during the tournament! Cecilia Silferskiold, sophomore, earned a top five finish, shaving five strokes off of her score by day two. The guys finished tenth in the Northwest Region Head to Head in Minnesota to end their 2007 season with success! During the three round tournament the overall team score was 945. Jimmy Spierings tied for 23rd with a three round score of 232 in the tournament. Bobby Arranga tied for 27th with a three round score of 233. Both the teams had their sights set high for the 2008 season, and they are sure to bring great intensity!

# CROSS

# COUNTRY

## RUN LIKE THE WIND!

Both the guys and girls cross country teams are heating up while they prepare to take the trail by storm for the 2008 season! The guys team of eight incredible athletes posted a successful season to beat in 2008. They finished out their 2007 season strong and came in 14th at the Regional Championships in South Dakota. The ladies team of 12 placed 14th at the Regional Championships. Both teams were headed by Coach John Esquibel and Assistant Coach Maria Jelinek. Senior Anna Hacker earned Second Team All-Academic by the RMAC after she finished 41st at the conference meet and fourth for the Regis team at the NCAA Division II meet with a time of 26:15. Both teams strengthened their skills and technique in the off season and are prepared to dominate in 2008!

The girls golf team came together to show thier bright personalities while they pose with thier Coach Paula Bauer.

Sophomore James Spierings watches the ball after his powerful swing!

## ALLEY-OOP!

The Regis Rangers started their 2007-2008 season strong. They were headed by coach Lonnie Porter and Assistant Coach Tim Brich. The Rangers played an initially tight game against Colorado College, and were down 56-40 with only 13:05 minutes left. They pulled it together as a team and made for an intense 20-3 comeback. They stole the lead back and ended the game with a dominating final score of 84-56. The Rangers kicked off their season strong. Senior Geremey Gibson was honored by the Rocky Mountain Athletic Conference as East Division Player of the Week. He scored 18 points in their game against Hawaii-Hilo and another 34 points against Eastern New Mexico. On average he ranked in 28.5 points per game and 9.5 rebounds. The Rangers dominated in their face off against Wales University with a final score of 101-87. Junior James Bullock scored a career high of 28 points. In the second half the Rangers took off with 13 straight points to trample the competition. Junior Andy Pokorny scored 18 points while sophomore Alex Potts added 14 to the scoreboard! The teams skill, unity, and game perseverance helped the team gain a playing edge on their competitors. Their season kicked off with a dominant start, propelling the team into a action packed season!

Senior Geremey Gibson dominates his defender and slams the ball through the hoop!

Andy Pokorny, junior, prepares for a pass from his teammate.

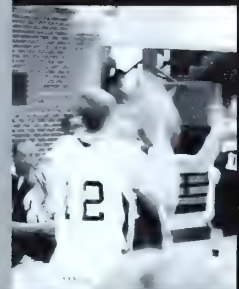

Kenny Howard, sophomore, Moves in for a Lay-up to give the Rangers another two points on the scoreboard!

Gaurd Aaron Sutton Recieves the ball from a teammate and shot to add to the Rangers score!

The Rangers technical skills helped them pass up their opposition and come out of the season very successful!

Junior Gabriel Green, a gaurd for the Rangers, calls out the next play.

James Bulluck, junior, fakes out his defender to pass the ball to a teammate and move it closer to the hoop.

Sophomore Alex Potts shoots the ball to up the Rangers another two points!

The rangers endless endurance and intense defense skills was proven every time the men were on the court!

# WOMEN'S BASKETBALL

## LADIES TEARIN UP THE COURT!

The Women's Basketball team had a fighting season, and proved that the Lady Rangers are rough and tough! The ladies were headed by in nopes to enhance their skills, technique, and team agility. This season four girls were recognized for the RMAC All-Academic award. Both Junior Paulina Tuell and Senior Stevi Seitz were selected for first team, while Senior Breanne Burley was selected for second team. Also for the Honor Roll selection was Sophomore Lauren Luebke. The girls made sure to put their opposition in place every time they took to the court! Each game demonstrated their high energy, great sportsmanship, and team unity. The team brought all they could to each game, whether ahead or down on the scoreboard the girls always held strong and pulled through. Overall, the season was a great success for the Lady Rangers who always showed Ranger excellence!

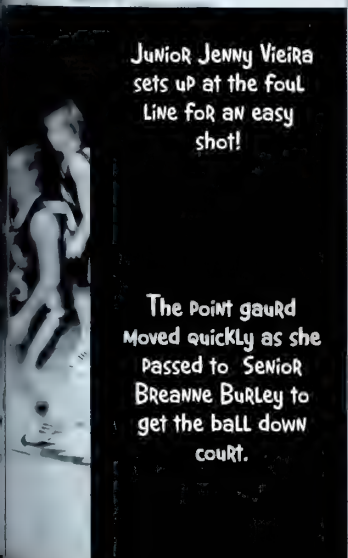

A Lady Ranger set up and successfully put 3 points on the Rangers Scoreboard!

Alley-Oop and its another basket for the Rangers!

It's a jumper! A Lady Ranger took a great leap to up the team another 2 points!

Freshman Ashley Pope thought fast and worked with a teammate to set up a screen to quickly break and receive a pass from her teammate.

Sophomore Lauren Luebke looks to pass to a teammate and help Regis put more points on the board.

Junior Jenny Vieira sets up at the foul line for an easy shot!

The point guard moved quickly as she passed to senior Breanne Burley to get the ball down court.

A Regis player displayed great form as she took a successful shot from the side of the hoop.

Junior Courtney Ault moves swiftly to elude her opponent and drive the ball to the net!

# SOFTBALL

## THESE GIRLS AREN'T SO SOFT!

The Lady Rangers took the season by storm! The girls came out strong early in their 2008 season with hopes of victory in the end! They were headed by Coach Dana Lillard, who was on her eighth year of coaching for Regis. Assistant coaches Jenny Lindstrom and Christi Weiser aided in tuning up the girls' skills and techniques on the field. Each game was action packed from start to finish and the cheering on the field seemed to overtake the cheers from the crowd at times! They kept up team spirit and worked off of each other's intensity during each game. The girls were a tight group that made sure to always have each others' backs! They worked well together in sight of achieving a victorious season in the end. The lady Rangers finished with a 2-2 record in the Mile Hi Invitational early in their season, before they moved on to play Adams State in Alamosa. With a headstrong stance early in their season, nothing was going to stop these determined Rangers from achieving a successful season in 2008!

## SWING..HIT..RUN!

The Regis Rangers Kicked off their 2008 season with a bang! The boys brought all their talent, new prospects and game intensity to the field as they set up for another successful season. They are headed by Coach Dan McDermott, who is on his eighth year of coaching the Rangers. Assistant coaches included Al Bieser and Ron Rocha, all who helped contribute to enhancing the Rangers playing skills. While playing Hastings College early in the season the Rangers managed an impressive 23 hits, and scored at least one run for each of the first seven innings! Pitcher Dan Kosloski struck out eight opposing players in the team's second game against Hastings putting Regis ahead. The Rangers walked away in victory with 12-4 and 11-3 scores against the Broncos. The team of 28 players came to Regis from all over, but now has grown as one team of Rangers ready to fight with great intensity in order to come out on top of the 2008 season. The boys tuned up their skills and technique no matter what nature dished to them. In the rain, snow, and wind the guys hit the diamond for practice! They proved that they had the will and drive to show what the Rangers could do on the field! In the off season the boys made sure to stay in tip-top shape and stay well conditioned for their upcoming season. With many home games ahead the boys looked forward to revealing all they've got in store for their competition throughout the season!

## ONE INTENSE SEASON!

The Lady Rangers proved their skills and made for an exciting 2007 season! The team was coached by Sarah Averson and assistant coach Beth Calder. Their season started off with a bang! When they faced off Swarthmore on St. Patrick's Day, the Rangers proved that they meant business giving their opposition their first loss. The Rangers dominated 14-12, six of which were scored by Jen Gunlikson! Other strong offensive players included Amanda Ponzer with three goals, while Caroline Herter and Chrissy Yetter each scored two. Defending the goal, Brittany Farnick had a recorded 17 saves in the game, her second highest total of the season! The seniors fought for a well deserved win against Lindenwood. Four out of the five seniors scored goals for the Rangers, Herter led with three goals. The team pulled away with a final score of 16-8. Their season ended with a strong game against the University of Colorado, winning 22-12. The Rangers lit up the field in the second half, out scoring CU 10-2! Lillian Yanni was recognized by The Intercollegiate Women's Lacrosse Coaches' Association and was named to the 2007 Academic Honor Roll for 2007. She finished the season with 10 goals, 12 ground balls, 19 draw controls, and two assists! The Rangers walked away from their 2007 season as a close team, strong individuals, and incredible athletes!

## HISTORY

The Lady's brought a whole new intensity to the historic game of Lacrosse, affectionately known as "The Creator's Game." The game of lacrosse was initially played to resolve conflicts, heal the sick, and develop strong members in ancient Native American Tribes. In its early years, Lacrosse was played as a preparation for war with a ball made from wood, deerskin or baked clay. The game was revolutionized by a French missionary in 1636 in Canada. Soon after, rules and regulations were set and the games popularity grew making Lacrosse a long-lived sport in history.

A Ranger cuts across the field in order to receive a pass from another teammate!

# LACROSSE

## THEY ARE A LIVELY BUNCH!

Although the lacrosse season had not yet started, the boys were well on their way to becoming a strong team. They scrimmaged three days a week throughout the fall season in hopes to better their abilities, technical skills, and stamina. Because they were able to recruit a top notch group of players from all corners of the country, they have assembled an elite group of players. The team was made up of seventeen talented and determined players. They became a very close group as they developed their playing skills on the field. Communication was key for the team in order for them to succeed against the competition. In the time it took to run a single play, the team had to be able to connect with the other players on the field in order to surpass their opposition. Together they reviewed technical plays in order to gain the upper hand and organize the team in hopes to score. They face off against many tough opponents but were forced to rely on their own physical abilities in order to conquer and shut out the competition. The knowledge they have gained through team building, personal development, and physical hardship from on the field will be reflected in their everyday lives off the field.

# RUFF RUGBY

## RANGERS

### BASHIN' N THRASHIN'

This years Rugby team had an excellent season, that had a great Kickoff in Fall 2007. Their early games came out with a 3-2 overall. The nationally ranked Regis Rugby Team, currently Fifth in Division Two, was headed to westerns for the Spring of 2008 for a chance to play in the National Tournament. The team worked hard their entire season, improving their skills, technique, and conditioning putting them at the top. This sport demanded great dedication and perseverance not only physically but also mentally. In a game as technical as Rugby, the players learned quality strategic skills in order to outplay the opposition, and come out with a win. Although they worked with a small budget and with a short roster, their talented athletes managed to pull out a very successful season. The team was coached by Dan Hattrup, who helped teach the Rangers to play rugby at a highly competitive level. They quickly bonded as a group, and grew throughout the season as a team. The team proved to be a tight knit group, displaying their ability to communicate and achieve their goal of putting points up on the board!

# INNERMURAL VOLLEYBALL

## BUMP! SET! SPIKE!

The Ranger Dome filled with laughter and excitement every Monday and Wednesday night as students accumulated their teams and strapped on some knee-pads! Inermural Volleyball gave students a chance to gather up a co-ed team and hit the floor with friends in order to take on their peers. Intensity at hand and determination in their eyes, Regis students enjoyed coming together for a fun game of volleyball. Inermural sports gave under and upperclassmen alike a chance to get together and meet new friends. The season was laid back, but the competitors never forgot to bring their skill and drive to win to the court for every game. Many teams gathered together for small practices in order to gain an upper hand and learn new skills with their teammates. Inermural Volleyball was one of the greatest spectator sports as well! The bleachers were roaring with cheers from friends and sometimes even family members that came to support their favorite inermural team! Inermural's allowed students to escape the stresses of school, enjoy the company of friends, and face-off against their peers!

Tall players came in handy during inermural competitions as the ball is slammed back over the net!

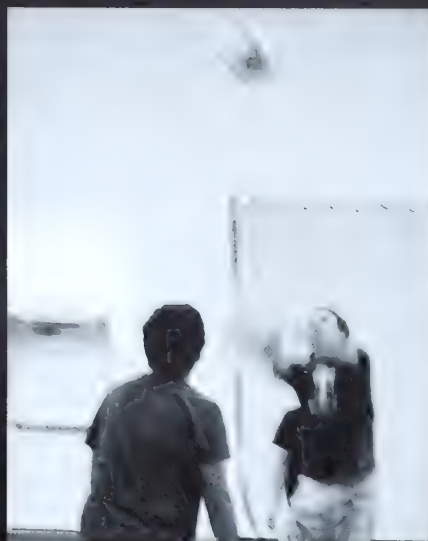

A player sets up to receive and bump the ball back to the other team!

## Scores

A player gets ready to receive a quick ball and bump it to a teammate!

A player acts quickly to hit the ball back to the other team! INNERMURAL sports were a fun way for students to gather a group of friends and compete in a fun tournament together against fellow students.

Spike that ball back to the opposition!

Vince Sapienza, Freshman, flies through the air to hit the ball back to the other side!

Although INNERMURALS were played just for fun, the players had fun getting into the intensity of their sport.

Edward Encinas shows his skills while setting up for a strong serve to the other team!

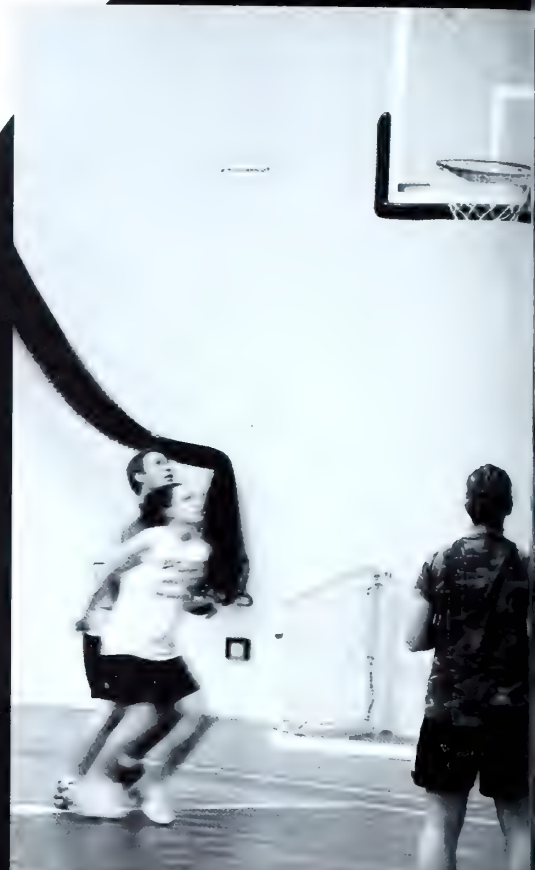

# INTRAMURAL BASKETBALL

**NO COACHES, NO  
GRUELING PRACTICES  
...JUST FUN!**

Intramural Basketball was an excellent chance for students to pull together a fun group of friends and strut their stuff out on the court! This years season was a great success as eight teams battled it out for four weeks until it came down to the remaining teams going into the playoffs. Each team was required to have both sexes on the court in order to allow everyone to get involved. The games took place in the Ranger Dome, which quickly became a gathering place for the student body as many came just to watch and cheer on their friends. Intramural Basketball was a fun way for students to enjoy a fun sport with their friends and without the pressures of playing competitively. Many students got involved because they knew that after the season and final tournament, the winning team is awarded with a t-shirt!

In an action packed game, a player manages to fake out his defender and go in for a shot!

With leaps and bounds, a Regis student puts two more points on the scoreboard for his team!

## Scores

Standings before the Playoffs:

TEAM:	WON-LOSS:
Green Light District:	6-1
Blumpkins:	5-1
Bufs:	5-2
Popcorn Plaaayas:	4-3
Patella Alta:	3-2
Has Beens:	2-3
Nuggets:	1-6
G-Money:	1-6

With a quick steal, the Player dribbled down court and pulled a Lay-out in order to up his team two more points.

Alley-Oop! And it's a basket!

A great attempt for a three-point shot! The Inner Mural games gave students a chance to pull together a team and enjoy a game of basketball with their friends. The Co-Ed set up of Inner Mural Basketball helped make sure that the teams were fun and allowed everyone to be included.

In an effort to pass the ball, this Player goes to the extreme!

In the fast Paced game of basketball there was no time to catch your breath!

The defender jumps a second too soon to shut down the opposition.

A Regis Player stops short and aims for a three-point shot to bring his team into the Lead!

# INNERMURAL FLAG FOOTBALL

## CAN'T STOP THEM!

Football has long been the sport to capture the interest of sports enthused America. For Regis University, this rough-and-tough event exists as a not-so-extreme way to have fun and compete with friends. Flag football is the first innermural sport to kick off each school year. Co-ed teams gather up their friends for a face off two times a week. This year the players brought their intensity, enthusiasm, and group determination to the field. They all come with similar goals in mind; to have fun, enjoy friends, and of course to win! The last remaining team after the season and play-offs that manages to defeat the others receives the end of the year innermural t-shirt! Many of the teams routinely found time to get together outside of the games to learn simple drills, tune their playing skills, and put together plays. With a better insight on the game. The innermural teams took to the grassy Regis fields. Flag football is based on the idea that having fun doesn't need to involve tackling, but instead with the yank of another's flag from around their waist and they are down! This makes the game more suitable for all students, and Regis athletes loved to get involved!

A student fakes a pass and attempts to push through the defenders!

"One great thing about flag football is seeing Regis faculty get so into the game. Dave Law would try to tackle whatever student had the ball!"

Kelly O'Neil, Freshman

Two opposing defenders go in for a tackle in hopes to shut down the opposition!

With a look of intensity, this player was ready to take on all the defenders in order to score a goal for his team!

The all-too-famous end zone victory dance is displayed by the enthused Regis student who successfully made a touchdown for his team!

All the way downfield! An innermural player extends after a long field kick!

As he stares the opposition in the eye, a innermural player is ready to take on his opposition. He and his teammates competed every week against the other teams in hopes to dominate the season!

The ball is caught and on its way to the end zone!

What a stretch! As an innermural player goes for the opposition's flags!

Watch out! This player barely escaped losing his flags while traveling downfield with the ball.

In quick reaction, this opponent snatches the ball holder's flag to end the play.

# FUN ON THE MOUNTAIN!

## SKIING & BOARDING

Strapping into a pair of skis and riding down a snow packed mountain has long been a sport of fun and leisure. Skiing as a form of transportation dates as far back as 4500 years in Sweden. By the early 1800's, the Nordic ski system was initiated allowing for the first organized ski events such as jumping and racing to form. By the 1900's skiing spread rapidly to European neighbors and by 1924 the first Winter Olympic Games were held in France. For Regis students, gathering a group of friends and heading to the mountains is just another winter activity they took advantage of! Skiers have perfected their side to side turning and even extreme jumps, until the snowboard raced into the picture! Around 1929 the first forms of a "snowboard" were seen gliding down the hillside. The fad carried on and has become a phenomena of today's extreme winter sports. Skiers and Boarders alike have learned to share the mountainous country so all forms of riding can be enjoyed by all ages!

## WINTER X-GAMES '08

The 2008 Winter X-Games made for an extreme, crazy, and gravity defying weekend! Ski and Snowboard competitors came together from all points on the globe to compete for a spot on the podium! A giant half-pipe allowed spectators to climb up the sides and get an up-close and in-the-action view of the skiers and snowboard pros! This year also featured Big Air contests as well as snowmobile racing and freestyle competitions! The buzz was loud around the Regis campus all week about who was heading up with friends and family to watch the extreme competitions to see which of their favorite famous riders would take home the gold!

Jackie Fulkrod and Patrick Corbell smile for a picture.

Anthony Boland, Freshman, successfully rides a rail while boarding with friends!

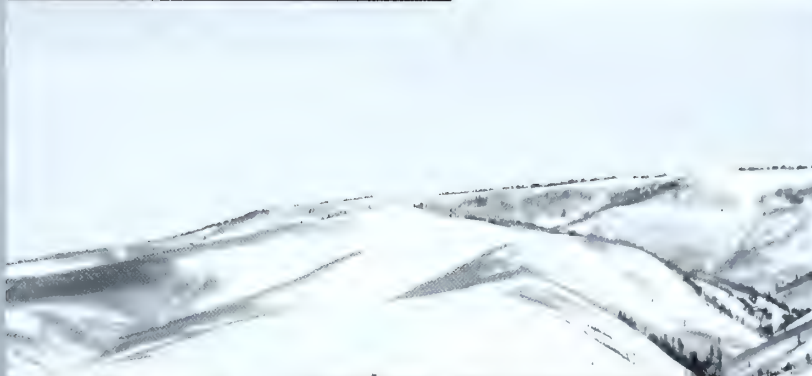

Evan Jinks and Tyler Siegel hangout in the snow after a crazy day of boarding!

Bobby Morgan and Mackenzie Turner stop for a quick picture while skiing together!

The beautiful Mountain landscape is wonderful in Colorado. Lots of snow made this years season loads of fun.

Sportin' the Taco Topper hat from Taco Bell, these boys proved they could let loose and had fun at the X-Games.

Freshmen Carson Brown and Stephen Hicks are just chillin while in the car after a long day of boarding.

The Lift lines are always a hassle but totally worth the wait!

Getting of the ski lift is half the challenge.

These two seize the chance to snap a photo on the chairlift before going to carve up the slopes!

# ICE HOCKEY

## FIRE IN THEIR HEARTS; ICE IN THEIR VEINS!

The echo of the Regis Rangers Ice Hockey Team as they rush after the rapid puck filled the air of the arena. Anxious spectators huddle together on the bleachers clenching their hot cocoa while cheering on the team in hopes that they will sink another shot on the competition! This season the guys assembled a tough team that brought great intensity and determination to the ice every time they stepped out to face off. Ice Hockey continues as a growing sport for the Regis Community, but this year's team proved that it is an excellent way to competitively compete with a group of friends. Although the team struggled a few times throughout their season, they managed to pull through and prove that Regis Rangers never give up and will fight until the end! The group developed their skills, techniques, and overall strategies together which in the long run helped them develop into a tight team. Soon they were able to feed off of each other's energy and become a strong team on the ice. By the close of the season the team learned a lot about the intense sport of ice hockey, self determination, and teamwork.

A Player dodges the opposition and drives the puck down the ice!

"Hit! Pass! Kick some ...!"

Peter Hannon, Freshman

The Rangers went into each game prepared for battle and their intensity showed on the ice!

The Rangers proved their endurance and technical skills every time they hit the ice!

The Rangers had a strong team but struggled during their season when playing against men's teams.

A player outsmarts his defender, and with a quick motion is able to skate past his opposition and head for the goal!

A player races to catch the puck and drive it past his opponent.

Smart offense... skater passes the defender to take the puck all the way to the goal!

The Rangers communication helped them while competing on the ice!

A Ranger faces off and quickly steals the puck from his opponent to pass to a teammate in hopes to score another goal!

# DANCE TEAM!

## LEAP! TWIST! SPIN!

The music blasts on and the Regis Dance Team instantly springs into action! This year, the girls brought a whole new idea of the unique, artistic, and athletic aspects of dance to the dance floor! They brought the school spirit and pumped up the crowd during every half-time performance when they took to center court. They used top hip-hop hits and developed an eye-catching dance that not only bumped along with the music, but also showed that these Lady Rangers knew how to bring the school together through one of the greatest forms of self expression! The girls grew as a group throughout the year and developed their skills, technique and coordination during their intense practices. Together the girls learned about dancing, entertaining and how to work together as a team. Soon they were able to feed off of each others energy and fill the gym with their upbeat spirit at each and every game!

The music blasts on and the girls jump into action!

Intricate choreography makes for an entertaining show!

Lit up with big smiles, each girl brought a special quality to the team!

The girls' bubbly personalities shined through in each performance!

The girls burst onto the court and flood the room with their intense vibe!

The Ranger dance team Made for an exciting and entertaining highlight to winter sporting events!

With synchronized moves, high spirits, and warm personalities the girls illuminated the center of the court every time they performed!

They strut their stuff and always put on an excellent show during half time!

As a team, the girls quickly grew together and their immense spirit showed through while performing center stage!

# IT ALL BEGAN HERE:

Even though it is easy to forget, academics were the start for all us at Regis University. Some come into school knowing exactly what they want to be, and some don't even decide until the last possible minute. Whether you want to educate people, heal people, inspire people or serve people Regis provides amazing professors to get you where you want to be. College is only four years (or more, depending) to some that may seem like eternity, but in the end, it goes by in a flash. So work hard and enjoy the ride!

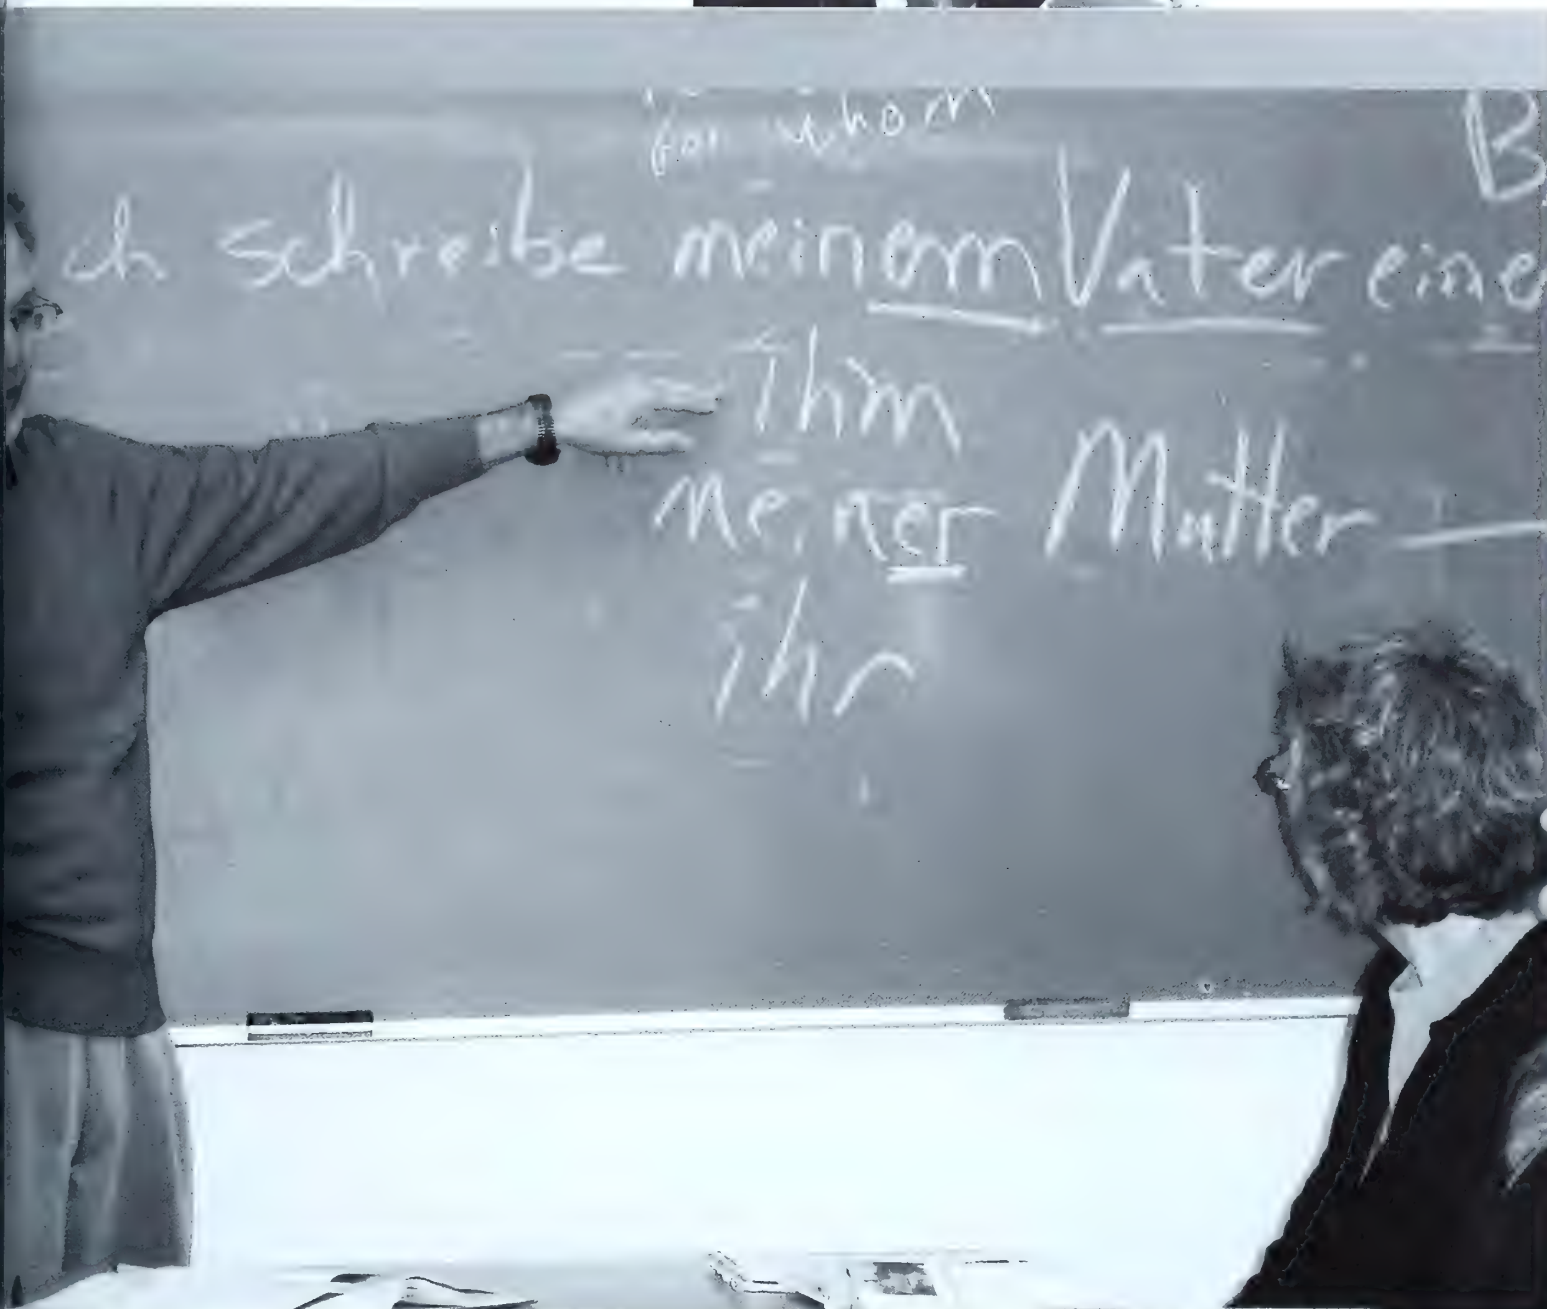

This professor spends time helping this student understand German.

Liz Carr studies hard while getting a boost of caffeine.

# ACADEMICS

---

"The student gaze" are what these students are portraying.

A lovely classroom picture of this accounting class.

Good business students taking notes.

Reading books or falling asleep? Hard to tell.

Wow...good times in Accounting.

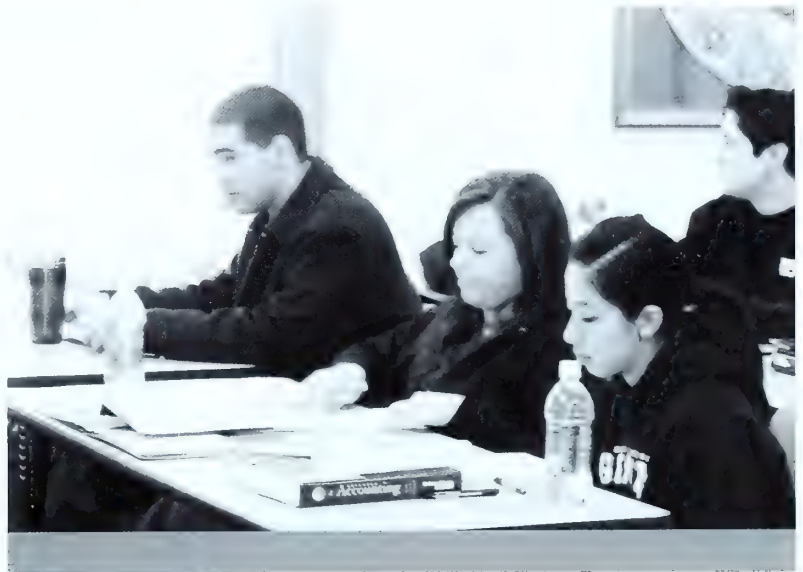

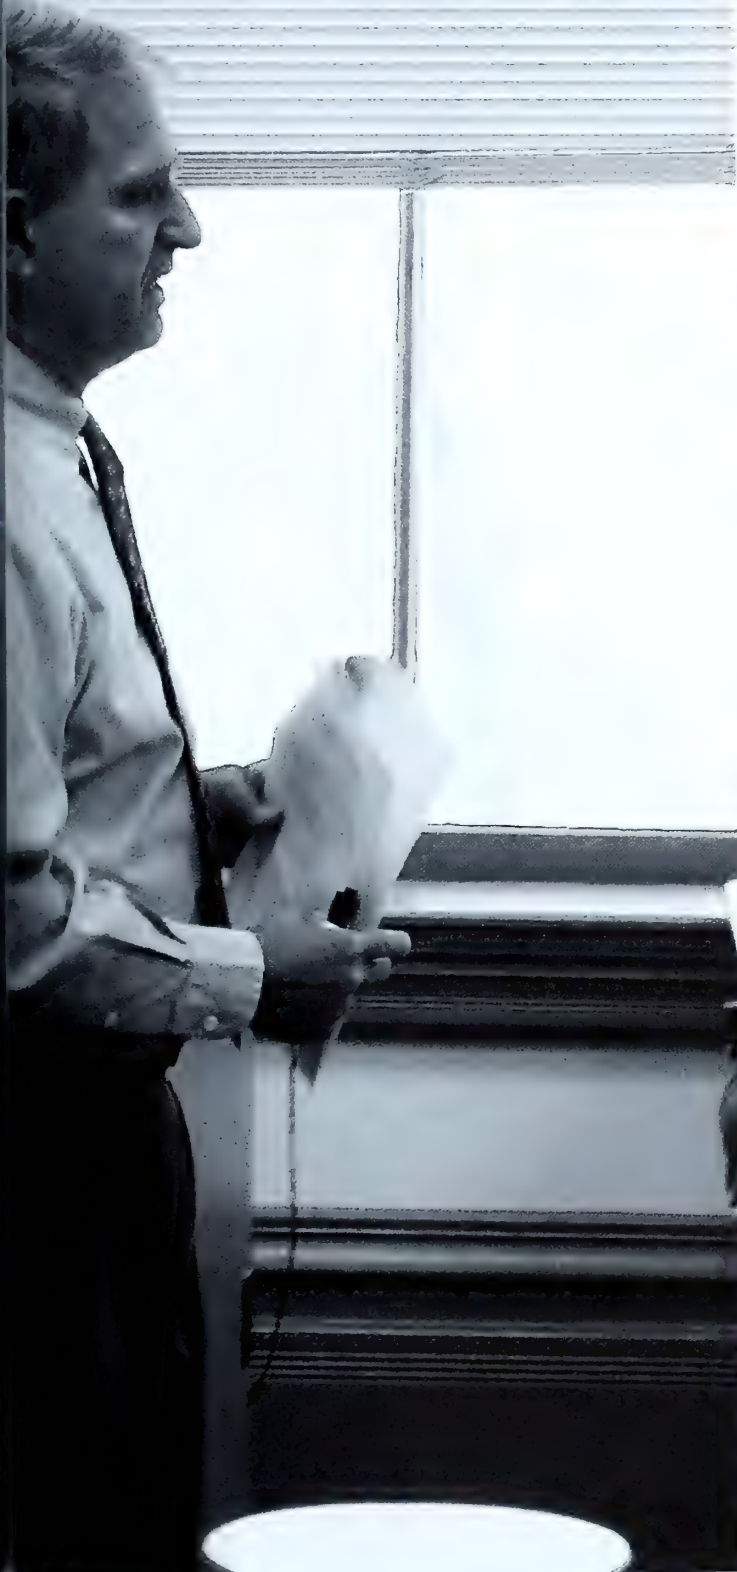

She's concentrating so hard she has to stick out her tongue.

# **BUSINESS/ ACCOUNTING**

1...2...3...4...accounting? I think not. Over my years at Regis, my accounting friends have worked extremely hard. One other major closely related to accounting is business. Business always seems to be the major anyone call "fall back" on if they are not sure of what major to pick. On the contrary, business requires brilliant, outspoken and future planning people. Many people do not possess these traits, and will not be successful in the very competitive business world.

Action shot!

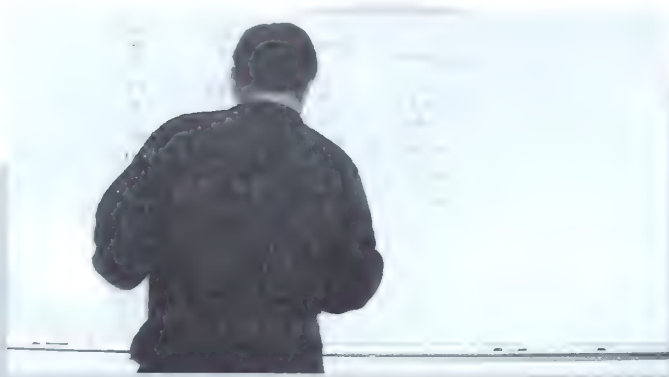

These students are trying hard to be successful in their business class.

This accounting professor shares his knowledge to his students.

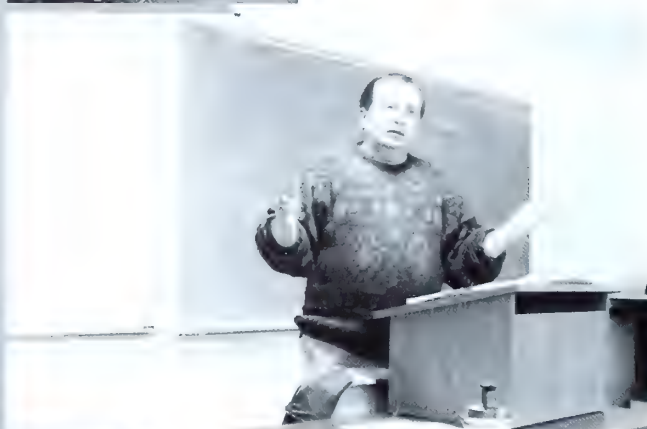

The professor writing out the lesson for the class.

A computer lab where many computer science majors spend their days.

You can't see this person behind their hair, but I'm sure they're working really hard.

This professor answering a question from one of the students.

Not all computer science classes are only on computers. This student writes down her notes.

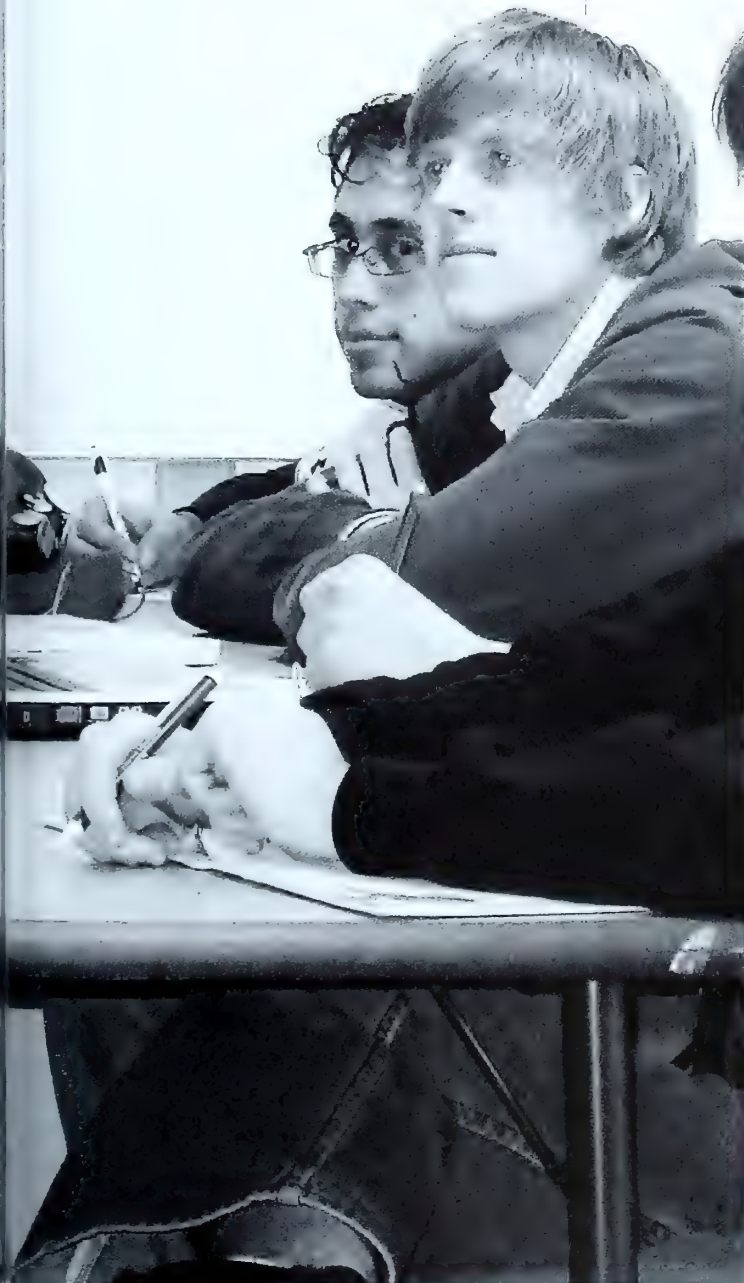

These two gents taking notes over the lecture.

# COMPUTER SCIENCE

For some, e-mail, Facebook and writing school papers come to mind when the word "computer" is spoken. For the computer science majors, computers bring to mind endless possibilities. Our world today has been made by computers and those amazing people that have majored in computer science. If we didn't have those amazing technically capable people, our world will be very dull. So thank you to the computer science majors who are brave enough to jump into the world of computers.

A computer science professor lecturing.

These students are showing the classic "student gaze" while sitting in class.

At least this student got the memo about the computer.

Here a student gets help with a paper. Wise Girl!

English Lectures are so interesting!

DR. BRUHN MAKING A POINT IN CLASS AND PONDERING FOR A SECOND.

It is an honor to work in the writing center and be able to help other students with their papers.

DR. BRUHN EXPLAINS THE IMPORTANT POINTS IN English class.

The writing center is such a busy place you need an appointment most times to get a paper checked.

# ENGLISH AND THE WRITING CENTER

Here at Regis English is like an art. There are many tools which enable a student to have a coherent paper or a superior background in literature. The English department strives to impress upon students the importance and values of English. Be grateful for those who profess a love to literature and writing. The writing center is a great asset to any student who needs help with a term paper. We owe it to those who work at the Writing Center in Loyola who continually help students with developing a thesis or organizing a paper. Thank you for all of your hard work throughout the year!

This Spanish class listens to the lecture.

Students concentrate hard while in French class.

One afternoon at Spanish Table. Several students talking with Professor Castro.

DR. REINER in German class.

“

**Jesus Gandarilla**  
Learning a new language is hard, but is even harder when you try to learn it inside a classroom. You must force yourself to use it outside the classroom because that way is how you will learn.

**Lestey Wood**  
Though attempting to learn a second language might be one of the most difficult things you will ever do, it could be the most rewarding experience of your life!

**Anonymous**  
"Je desteste francais."

”

## LANGUAGES AND TABLES

SPRechen Sie Deutch?:

"Panska sela, Kineski gradovi." The clack of a thousand tongues, straining to roll out new syllables and dialect, echo through the halls of Regis University. As the world has become increasingly integrated in business and cultural matriculation, students have taken on the arduous task of learning to communicate with disparate populations. Staff and students have rallied to ease the task of learning a language through the provision of language tables that immerse students in their prospective fields of study. Spanish, French, German, Russian, Chinese... are painstakingly spoken and studied in order to recount such things as business, politics, trade, foreign belief systems, directions to the restroom, and in true college fashion, how to order another round of hot wings for the table.

This professor talks to a student in French class.

Some students really enjoy having a smaller class size, like this German class.

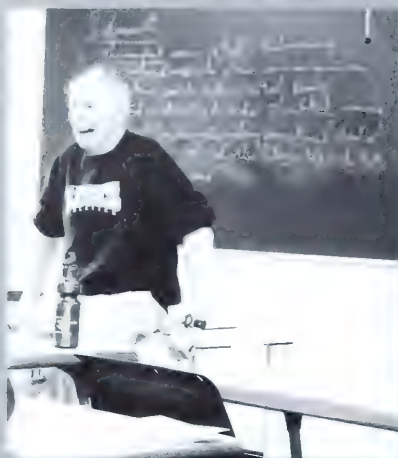

Students listen to Professor Cabellero in Spanish class.

This Professor walks around the sociology classroom answering questions.

Students write feverishly to copy down notes in philosophy class.

Dr. Duggan makes a defining point in philosophy class.

Students take notes in sociology class.

“

Andrea Butero  
Philosophy of Fairy Tales was a great class to take!

Dr. Duggan  
Philosophy is telling stories about the stories we tell, which is why I like to teach courses in which philosophy and literature speak to one another.

Gardner Waterman  
Duggan is like a chill young professor but with about fifty extra years of wisdom.

Colin Ferro  
Sociology causes us to look at every situation as an individual.

Dave LeDoux  
Sociology courses have really opened my eyes to the current issues that plague our society and have prompted me to become more proactive within my own community.

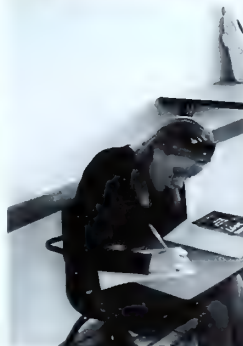

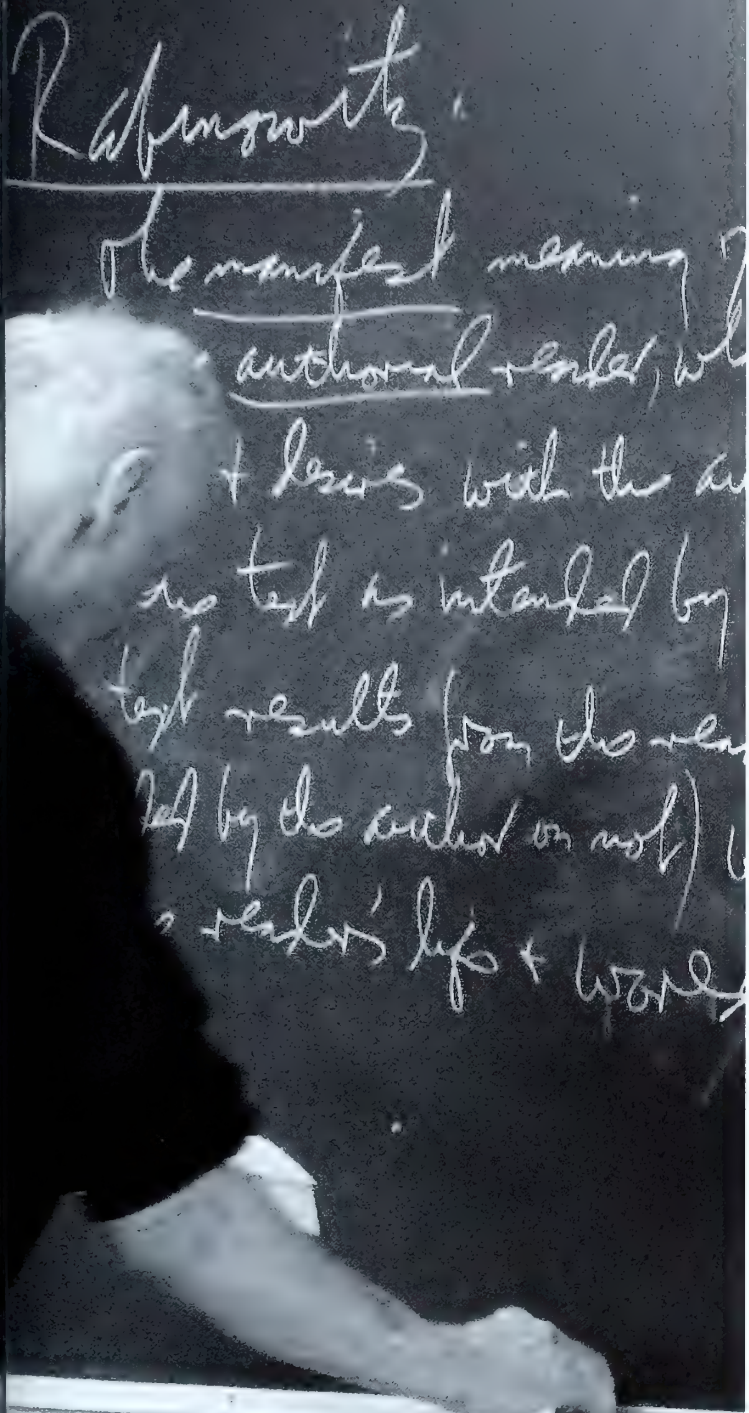

”

## SOCIOLOGY/ PHILOSOPHY

Moving and improving:

In the wake of a world torn, the willful minds of Regis youth have come together to explore the issues of today and the possibilities of tomorrow. Reveling in the words of Kant, Mill, Bourdieu, Archer, and other great minds, global social processes and the individual mentality are explored to realize an ethical end. However, like all vast examinations into the cavernous depths of the human condition, the best source for observable material and action is right here at home. The wily ways of colligate adolescents are assessed, and fair trade practices have improved the minds, and in some cases the stomachs (fair trade chocolate- yum!), of the faculty and student body. The knowledge accrued by these students is incalculable and has led to great benefit. Perhaps human knowledge does presuppose participation of the mind.

This student is focusing on her notes trying to get into a Philosophical Mind set.

These students write down as much as they can for their next Sociology test.

Dr. Duggan finishes writing some notes on the board for students to copy. Many give him a hard time about his handwriting.

Taking a little time to get organized for Religion class.

Sometimes it is better to just sit back and listen.

Keeping the attention of the students can be a difficult task.

This student is taking notes in his Religious Studies class.

“

Robert Mery

"It is a great class to take because it takes you deeper into the bible."

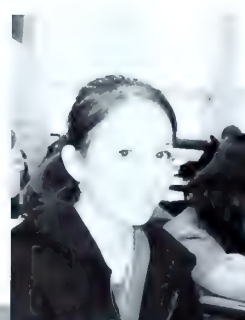

Meaghan Kelly

"It's taught me things I never knew before."

Jennifer Minch

"Father Ryan provides challenging prompts for each essay I had to write, I really had to look into my personal life."

Jennifer Filipi

"Religious Studies has strengthened my beliefs."

”

# RELIGIOUS STUDIES

Let there be light and feng shui?:

Religion is the cornerstone of culture, providing for spiritual gatherings, ritual, group belief, and community ties. The impact of religion incurs an incumbent need for understanding and acceptance of universal and disparate practices. Religious studies, therefore, has become the embodiment of the base Regis education. Rangers embark on spiritual quests to improve themselves through education in Buddhism, Hinduism, Catholicism, Taoism, maybe even a little of "The Zen of Steve", and the like. In journeying to discover new realms of spiritual possibility and comprehension, Regis youth are able to learn self-truths and broaden their historical perspectives (and perhaps effectively feng shui their rooms).

Studying Religion or the pencil?

This student is getting ready to present in her Religion class.

Answering a student's question.

I Love History!

These students anxiously  
prepare for the next assignment

I could agree with that!

Thats a good students  
getting Prepared to  
take Notes.

This class is nail biting.

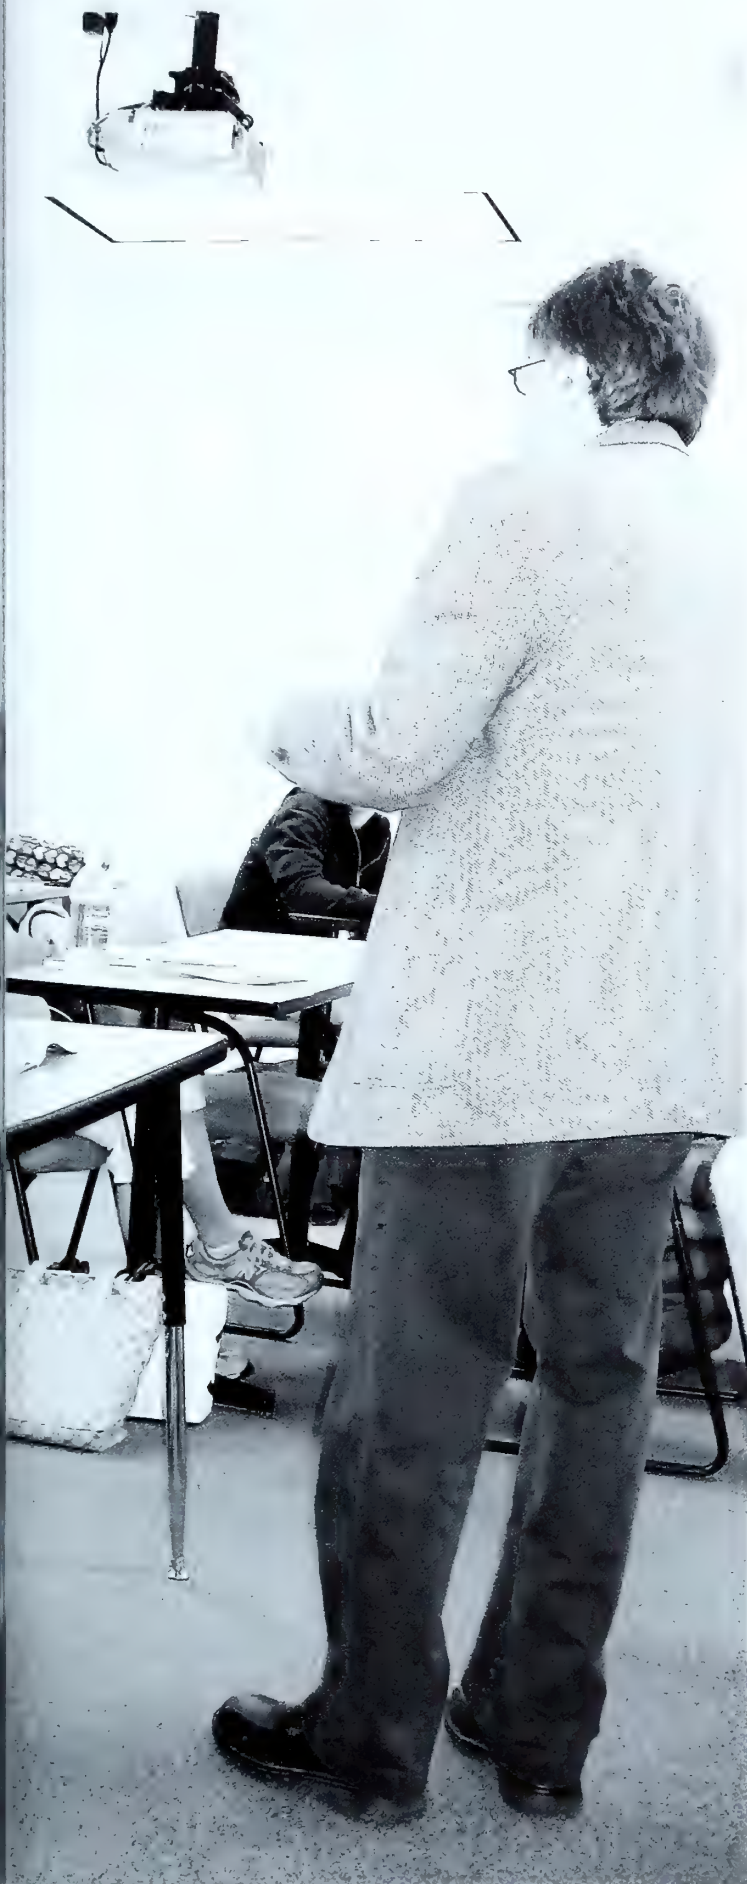

# HISTORY/POLITICS

Change is here:

Rally around the Red, White, and Blue. Election time is nearly upon us again, with Presidential candidates reading speeches and attending rallies, and the global community quietly watching. The world has changed greatly in the last decade with war, genocide, political unrest, scandal, great hope, and movements towards peace and generosity in tow. With such progression towards a different tomorrow, one cannot help but assess the intricacies of the past and today to ensure success. It is in this vein, that Regis students have taken to the books. Studying the political frameworks and historical events that have shaped not only the world, but also the Regis community and themselves, has brought forth great insight. These students have realized the impact of individual and group actions- actions, be they small (like that tomato you threw at your sister's behind when she was bent over, just to hear it go "splat!") or grand (the unrest in foreign countries... or consequently, the wrath induced by the tomato splat)- and have taken great stride to find solutions for peace.

DR. Clayton's students  
are anxious to learn.

This student is pleased to  
be in class.

Some students practicing the piano in class.

This student works hard on her painting in art class.

This student cuts out fabric for her art project.

Ron Miles came to Regis and helped the jazz ensemble.

In order to be in music, you must feel comfortable to perform!

Having a good time painting in class.

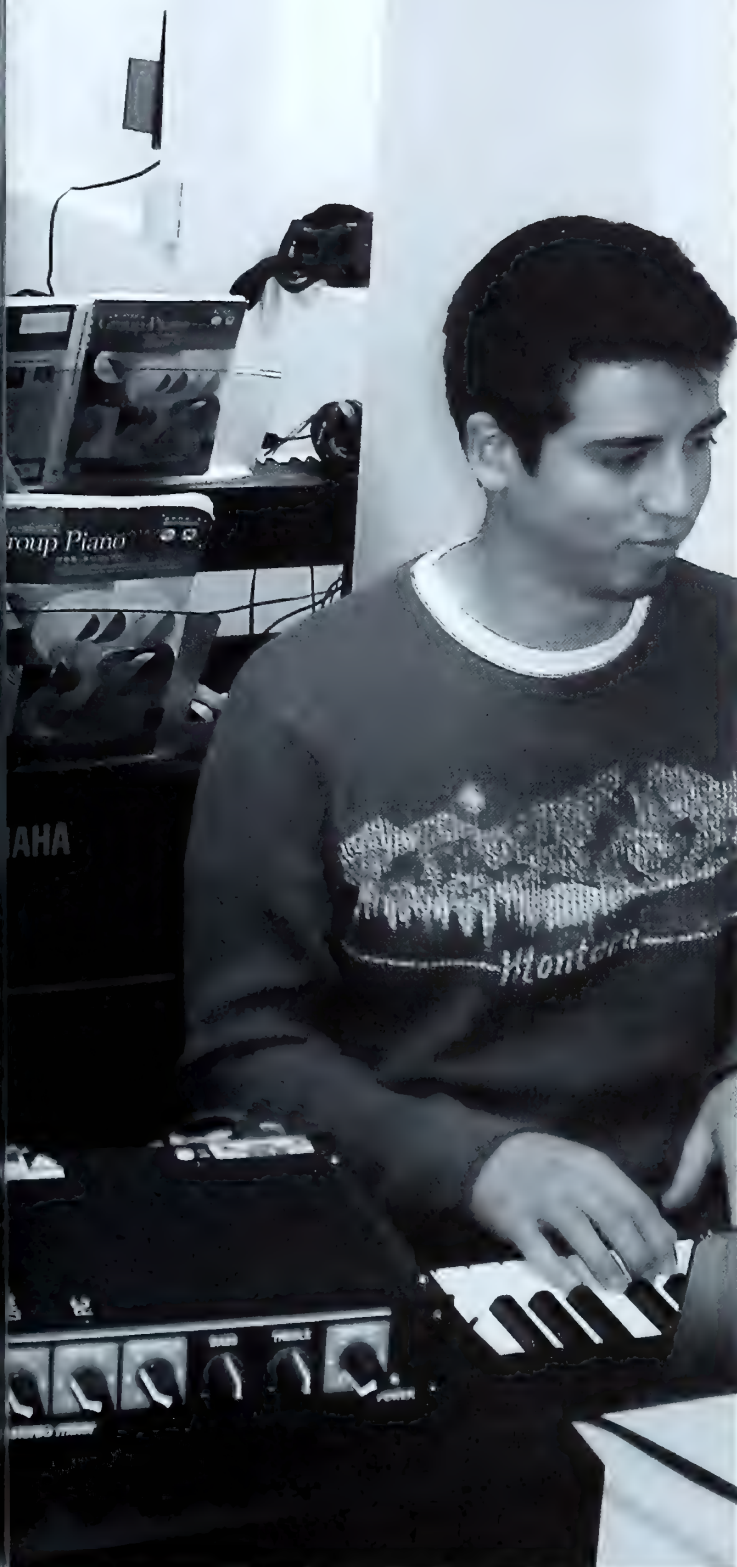

# ARTS AND MUSIC

## Coming Home:

SWIRLS of vivid melody, color, texture, and shape enrapture Regis youth, as the embers of passion and intrigue are ignited in brush strokes, exhaled high notes, and quick camera snaps. The art and music department has long been a fixture for minds conjuring beauty, depth, and incisive statement. And for most in this world of imagination and poetic thought, this is simply home. The languid movements of creation bring the base soul to campus, providing a world for others to become lost in, intrigued by, and enraptured in. The true talent beheld by these Rangers inspires us all to create, be it a masterpiece of spoken word, writing, the belt out of a karaoke tune, or the drawing of the beloved "stick" snake. If nothing else, we are all invited on the journey "home".

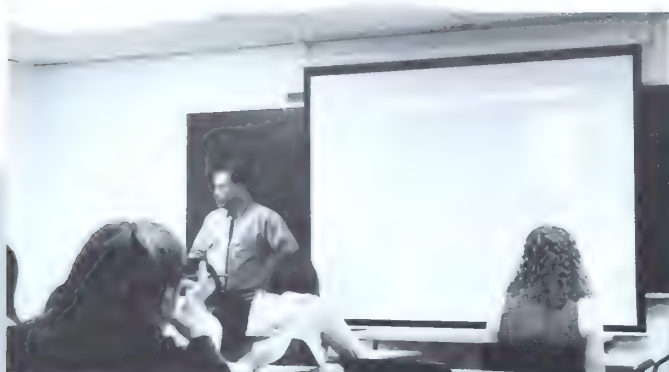

Ron Miles plays a concert after he helps at Regis.

Art class takes a lot of hard work and patience.

Nick gets a little extra attention in piano class.

Language development, very important.

This student is getting her question cleared up in class.

Right??

These girls giving a presentation in their education class.

This student is taking a couple notes through her psych class.

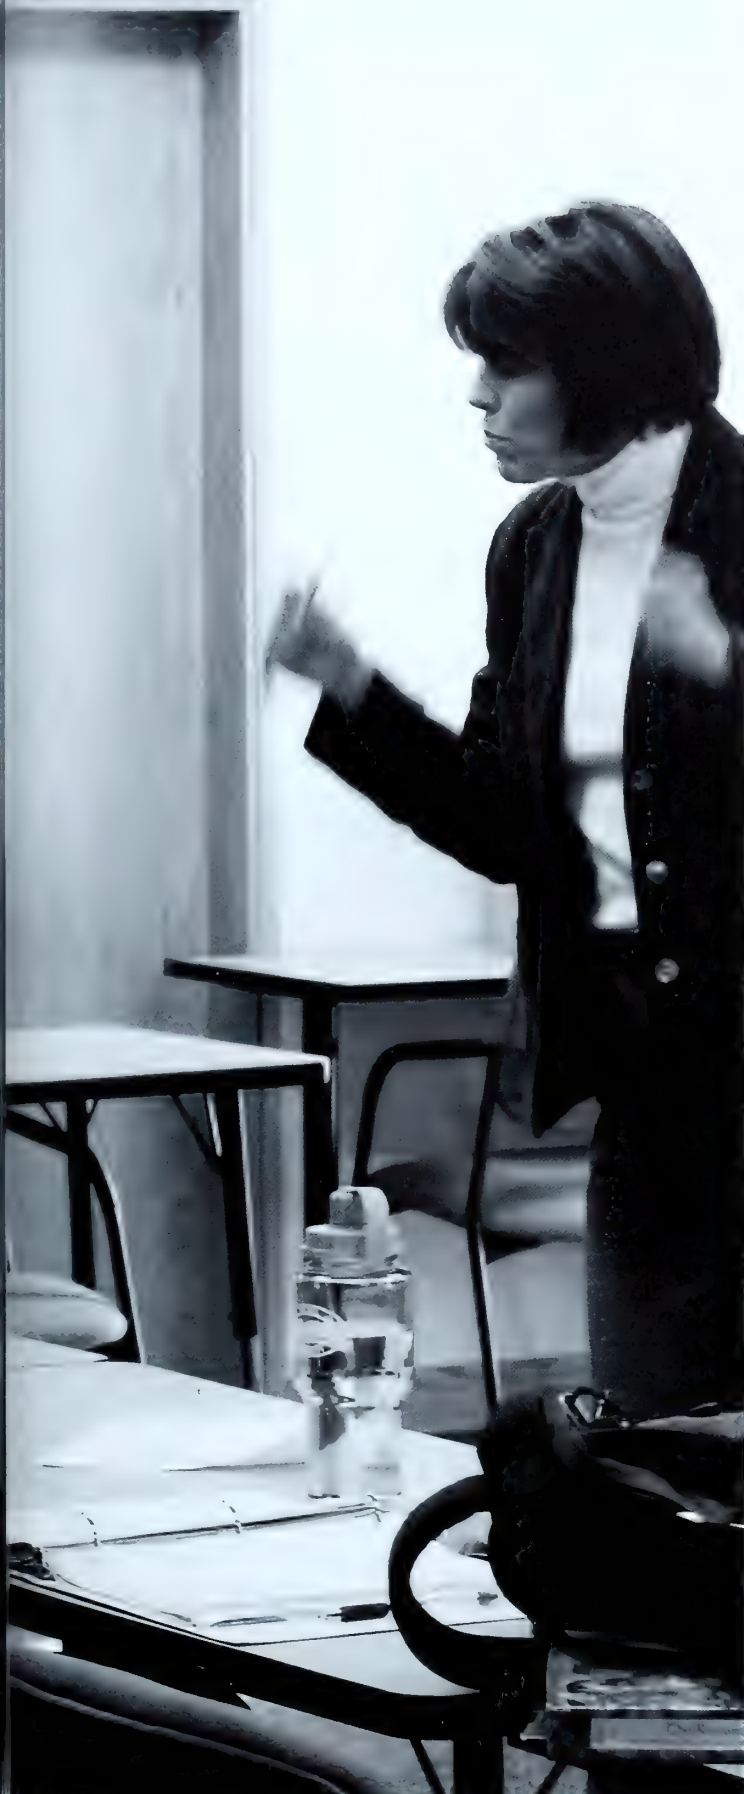

Power points, always a great teaching method.

## PSYCHOLOGY/ EDUCATION

Some may be surprised to know that Regis has an education program, but how do they think we end up with professors? Considering all of us are here for learning, I feel comforted knowing Regis is producing other high quality teachers, such as our professors at Regis. Psychology can be connected with education, considering we need to know as much as we can about what is going on through a child's mind. Psychology is an amazing subject to learn the twisted workings of our minds. Some may not want anyone to know what is going on through their mind or analyze their actions, so they should remember to stay away from psych majors!

This boy is being a good student and taking notes in class.

These girls are listening intently in their psych class.

This professor looks as though she really wants to get her point across

Good times in Science!

These students are looking through their packets of Biology Notes.

This professor is doing a great job teaching the art of science!

Look to the front! Pay attention!

That girl is being a good example for all of us, taking notes.

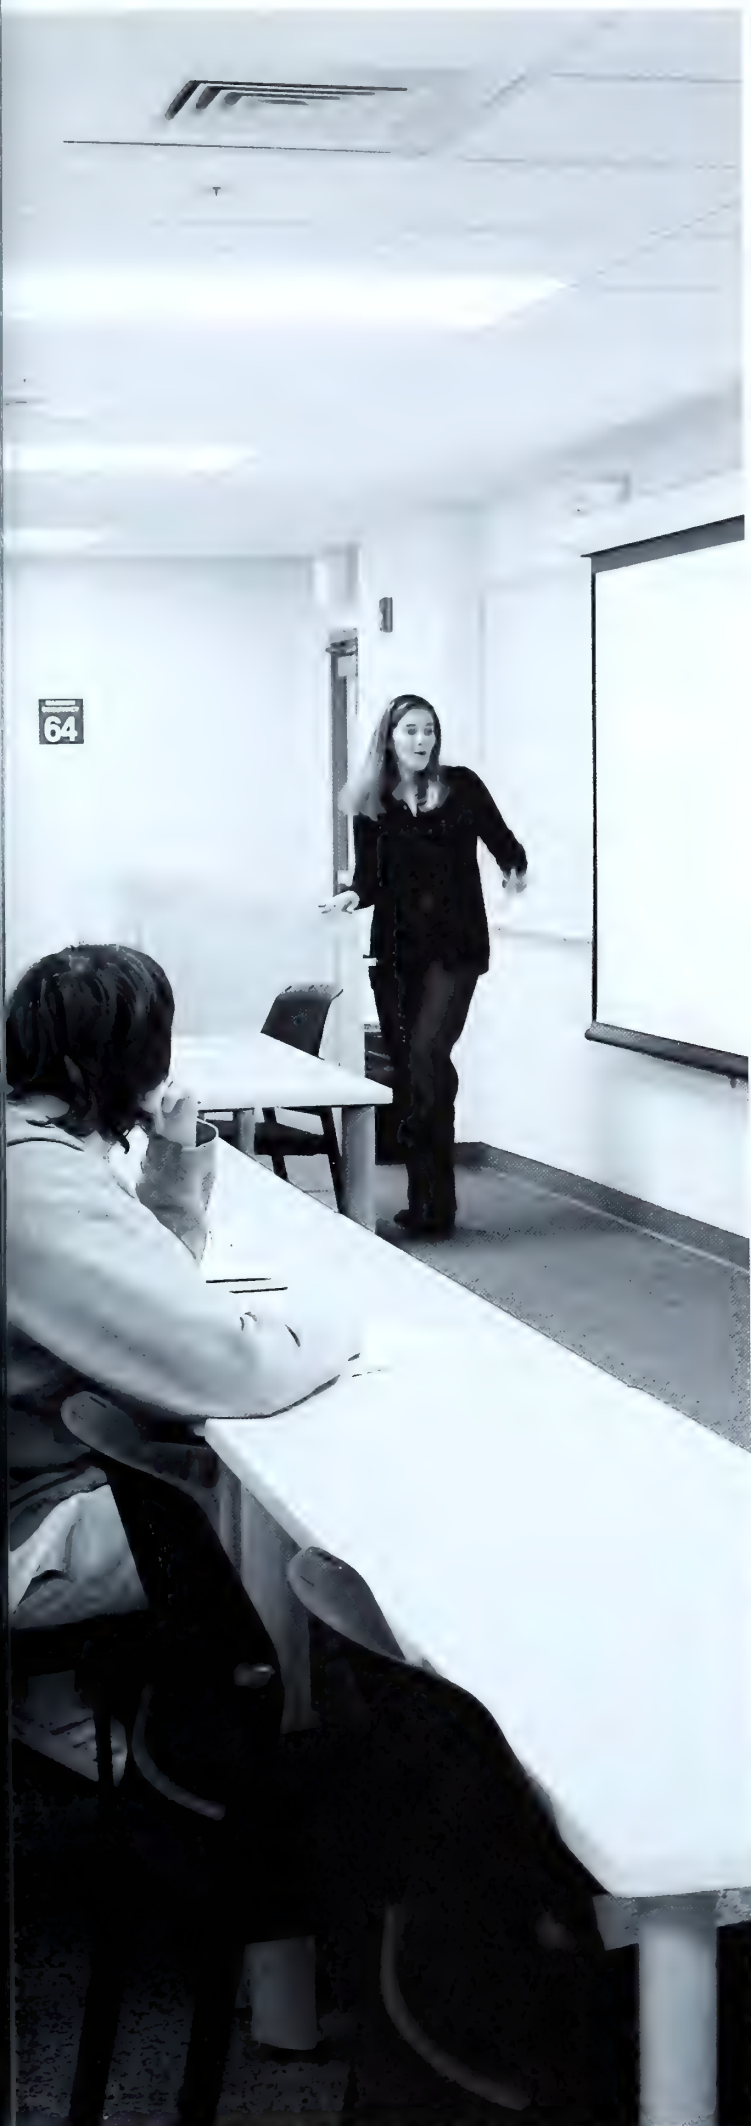

Zoning or actually paying attention? Hard to say.

## CHEMISTRY/ BIOLOGY

"I have a lot of weird outfits from freshman year, as a result from being in Chemistry" says an anonymous source. This source may not enjoy Chemistry but her wardrobe expands thanks to her stressful Chemistry class. Although some just try to survive through the mandatory science classes, others truly love the art of science. Chemistry and Biology are basic sciences that everyone should learn and be able to enjoy slightly. Biology is the basic science of life, and everyone has to admit life is interesting to some extent.

Where are your books?

Hey you in the second row...wake up!

This professor is trying to explain the art of an electron

Paying attention?

This lovely lady is taking notes  
in her Physics Lab.

Concentrating hard on  
getting her Lab finished.

The advanced  
technology of the Regis  
University Physics Lab.

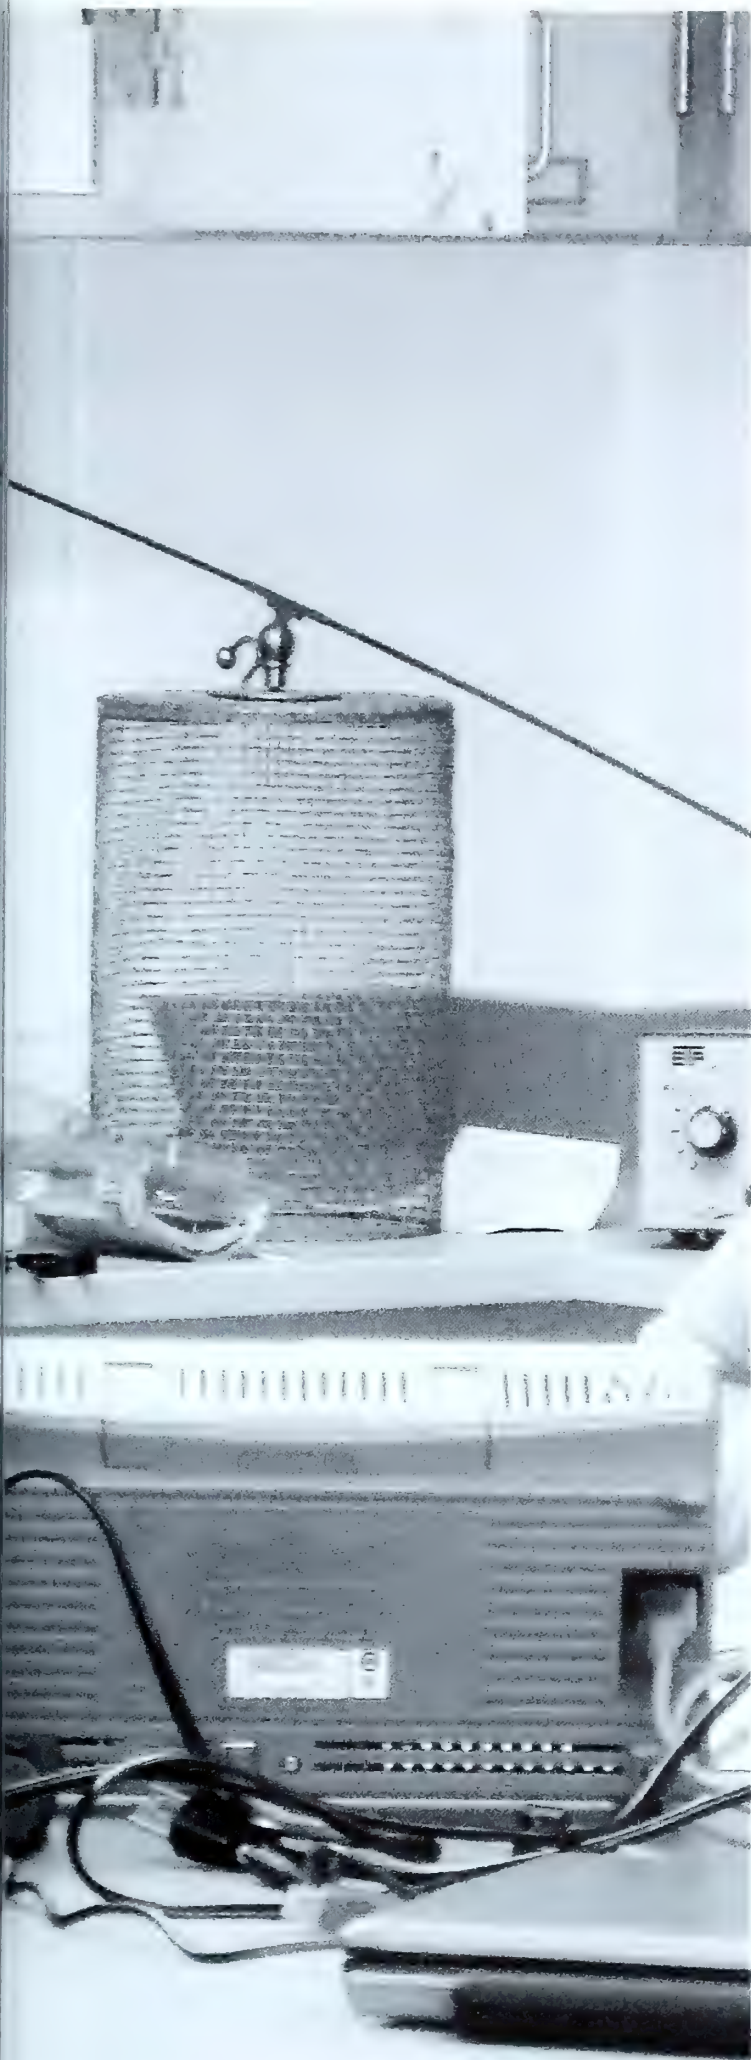

Students intently working  
on the Labs.

## PHYSICS/NEUROSCIENCE

I give Kudos to all who are Physics Majors. I must say that has to be one of the hardest classes in the world. I failed Physics horribly in high school, and cannot imagine having it as my major. So I am proud of all who can say Physics are their major. Also, neuroscience is amazing. To know how everything works in the brain is amazing. Then you can figure out what was going through the minds of those who decided to become Physics Majors.

Having a good time?

It's all about  
teamwork!

Accelerated students Learning  
Newborn assessments.

Blood pressures tend to rise  
when in Nursing school.

Karaoke time!

What our favorite Lab  
teachers do when no  
students are around.

“

Morganne Lea  
I'm celebrating when I'm  
done.

Francis  
I've been in a coma My  
entire life.

Monica Raleigh  
The last four years I  
have been brainwashed  
to eat, breathe, think and  
sleep nursing. I have to  
admit it's made some  
really interesting  
dreams! it's been a  
difficult and long  
journey but so  
rewarding.

”

# NURSING

A healing heart, a helping hand

Nursing: the true calling

The final days of class and clinical culminate with the dreams and aspirations of childhood, becoming reality. For most in nursing, care started in the individually named home hospitals of youth that were focused on caring for the fluffed, stuffed, and furriest of friends. Fevered brows were lovingly wiped, as the dangerous "purple spotted sepsis" (most treacherous to those with china skin) was cured away. The compassionate hands of youth held onto the reverie of a better life for others. Now, in the midst of a dream realized, the remarkable hearts of those eager young are holding the hands of the critically ill, the sullen and weary, the disparate, and yes- even a few plastic lab friends, in the name of a better tomorrow. They have become what they have always aspired to be- they have become nurses.

Rebecca and Marie in our beautiful navy scrubs.

The chaos that can sometimes be seen in nursing lab.

The view of a nursing student.

When MOM and dad come to visit Holly Newby and Kelsey Melander in Brazil. Nice ride

Holly Newby studying abroad in Brazil.

Maribeth in Renaca!

Lesley getting to visit the King's and Queen's Palace in Spain!

Kelsey getting great pictures while she spends a semester in Brazil!

If you are in Paris, you have to get a picture with the Eiffel Tower!

# STUDY ABROAD

Going to another country for an extended amount of time to learn their language, take classes and learn their culture, is a life changing experience for those who are lucky enough to experience studying abroad. These pictures are only a few ladies of many that got to experience a foreign culture for a semester or a year. These pictures are from many different countries, such as Chile, France, Spain and Peru. People who have studied abroad have been on amazing adventures and are great people to hear stories from (of help you with Spanish homework...).

After climbing flights of stairs in Valencia, Lesley gets a break to take a picture.

Maribeth skiing in Chile!

Mary was able to go on semester at sea, along with spending a semester in France. This is her in Macchu Picchu.

This student busily prepares for an exam.

The Library is a great place to go in between classes to get some extra work done.

There are many computers in the library.

The spots to study are near the many windows.

Books Books galore

The Library is a happening place all hours of the day/

# DAYTON MEMORIAL LIBRARY

Where is a quiet, calm, tech loaded place to be and has the best view on campus? None other than our own Library. Our library has numerous resources at the disposal to the Regis community. The library staff is always willing to help students find articles or other resources. Dayton Memorial Library is a great place to finish up last minute homework or catch up on some reading. So whether you are doing homework or just need a quiet place to be the Library at Regis is a wonderful place to visit!

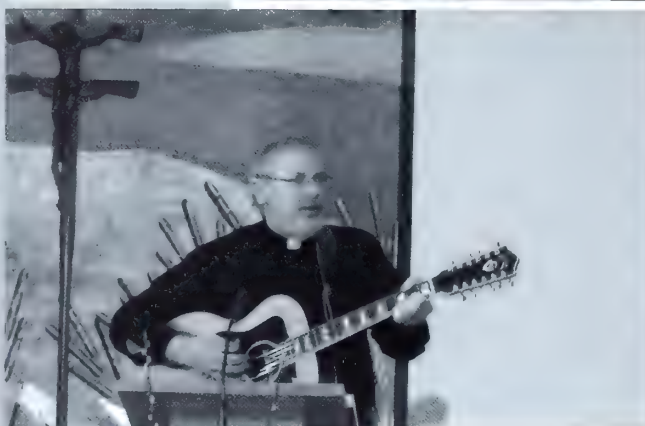

Trying to get his point across to the audience.

Voicing her concern.

These two beautiful girls sharing their stories.

Who knew he could play the guitar?

The audience enjoying the wise words of the speaker.

Action shot: giving an amazing speech.

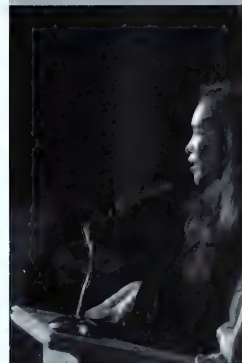

# SPEAKERS

Let's Move forward:

In an age of vast technology, media, discovery, and renewal, there is a strong need for the youths of today to have an extensive scope of base knowledge and comprehension in various fields of study. Reveling in the ideals of transformational leadership and group followership, Regis has brought forth lecturers to pilot the minds of the campus towards a new future. Global processes, religion, movies, religion and movies, mental health (a key topic for those ready to "drop their baskets" pre and post finals week), fair trade practices and how to jump your snowboard off a cliff and survive, have been assessed, improving the intellect and, hopefully, the health of students at large. The information provided by speakers from all over the country has captivated and enthralled the campus, allowing new enterprises to be born on the wings of knowledge.

Side view from one of Regis' memorable speakers.

Thank you for giving your time to Regis!

These amazing women giving us a speech we will never forget.

The career Fair at Regis in the spring was a huge success!

Richard Delliveneri is the director of the Career Services here at Regis.

Coming Prepared always  
Makes a Lasting  
Impression on future  
employers.

Smile pretty while  
Looking for that dream  
job.

In service of others!

# CAREER CENTER

The Career Center here at Regis University is a great asset to all Regis University Students and Alumni. The Career Center is a tool many students use to get that dream job or a killer internship. Every year there are Career/Internship fair at Regis. Employers all over come to recruit the best here at Regis. Many students have held and internship and can attest to the great experience they gain while on the job. The Career Center here at Regis is wonderful and they never hear enough praise so we at Regis want to thank you for all of your hard work.

People who are at the fair are always willing to help and answer any questions.

The front desk to the Career fair. Thank you!

### SPECIAL THANKS TO MANY!

Dave Law-Thank you for guiding us and being a helpful and enthusiastic advisor for us here at the Yearbook!

Alyce Hamilton and Lifetouch- Thank you for working with us, training us on the program, and helping us meet our deadlines!

Graham Hunt- Thank you for taking such wonderful photos and allowing the yearbook access to them, they were a huge help!

Brett Stakein- Thank you for all the photos as well and all the advice you gave us on how we could be more successful!

Mike Sakas- Thank you for taking our portraits and working with us to be creative and have fun!

Mallory Brainer- Thank you for the endless copy's you wrote they were wonderful and a huge help!

Thank you to all those who contributed to the yearbook by giving photos and support! Thank you to the staff of the yearbook this book would not have been possible without you ladies. Thank you!
